ALBANY, N.Y.

ALBANY HARDWARE & IRON CO.

BASEMENT

Showing a part of the wire products stock, poultry netting, hardware cloth, fencing and annealed wire.

The Albany Hardware & Iron Co. was founded in 1845 and after several changes was incorporated on June 9th, 1891. Our growth since that time has been steady and healthy.

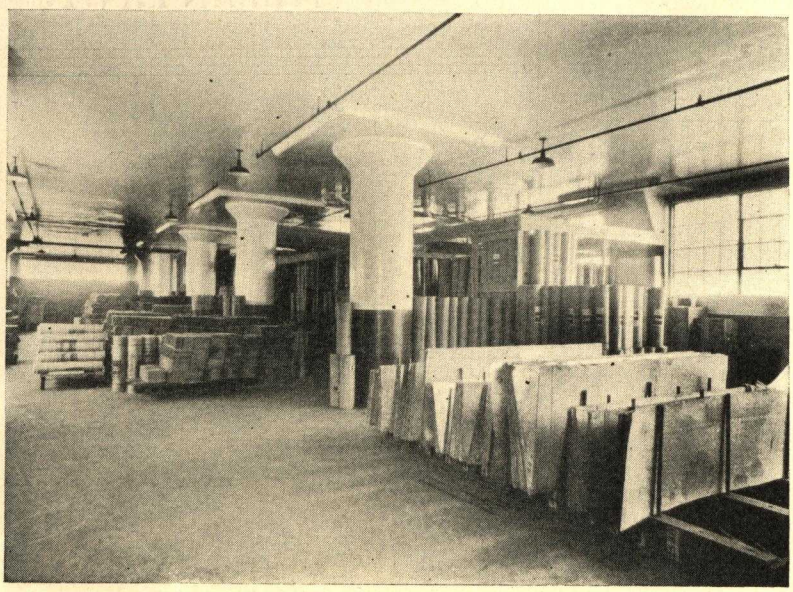

Starting with only a small twenty foot store on State Street we were soon obliged to rent the adjoining building to take care of the increase in business. A few years later a warehouse was acquired but this was outgrown and it was necessary to seek larger quarters. A warehouse containing fifty thousand square feet of floor space was purchased although at that time only a portion could be utilized, so various parts of the building were rented to small manufacturers but as the business expanded they were one by one forced to seek other quarters.

For the next ten years this space was ample for our needs but the continued increase in our business then made it necessary to provide larger and more modern quarters.

Because of the tonnage of both incoming and outgoing shipments it was essential that we have siding facilities as well as being convenient to the several freight houses.

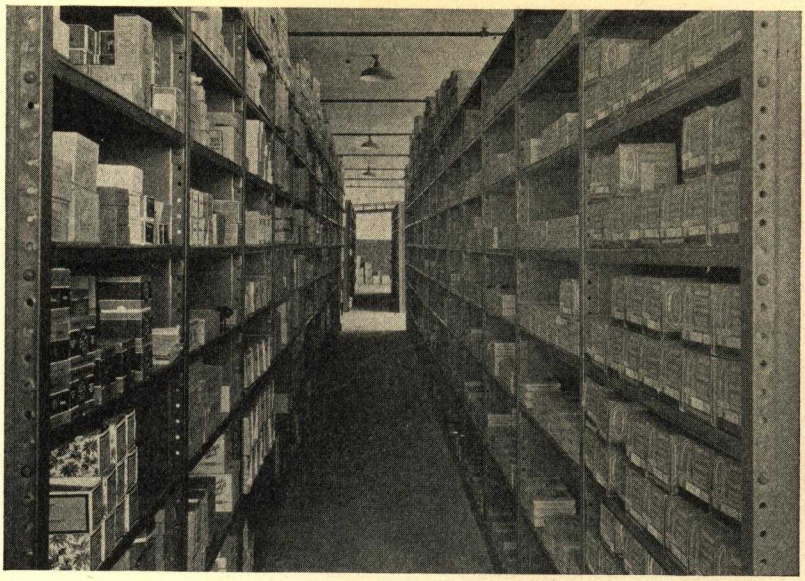

Our present site is ideal in as much as we have a railroad spur and at the same time are less than 0.7 mile from the most distant freight house.

Our new building which was completed in November 1925 is without doubt the most modern and fully equipped of hardware warehouses. It is approximately 100 x 200 feet and has seven stories and basement with a floor area of 170,000 square feet or a cubic capacity of nearly two million feet.

MAIN FLOOR

Part of prepared roofing stock and just the end of sheet iron rack.

THIRD FLOOR

Looking down through one of the thirty six shelving aisles. The aggregate is equal to nearly five miles of shelving twenty four inches deep.

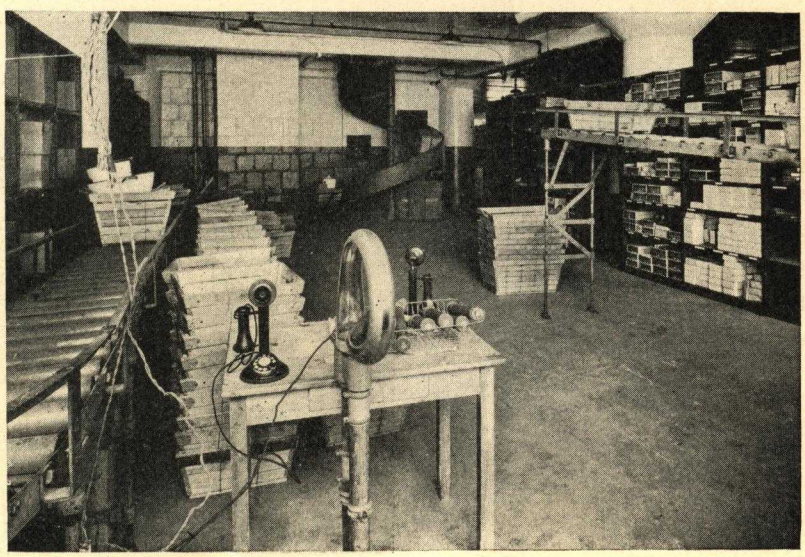

In planning and laying out the building it was our idea to use as much modern labor saving machinery as was practical. Spiral gravity chutes are used to lower merchandise from the upper floors to the shipping platform thus leaving the two large electric elevators free to handle the incoming goods. A gravity conveyor system combined with a spiral chute is utilized in assembling the shelf items for packing. These greatly decrease the labor cost and expedites the assembling.

The railroad spur extends along the entire south side of the building enabling us to unload five carloads at the same time and to facilitate the handling of merchandise from the cars and platform, lift trucks and platforms are used.

These also are used where practical to handle the outgoing shipments.

Transportation to and from the various freight houses is accomplished by a tractor-trailer system whereby a tractor with three trailers can accomplish nearly as much as three separate trucks. The saving not only in labor but also in investment can be readily seen.

In view of the ever increasing use of the telephone as a means of communication we have provided our plant with every facility in this field. First we have an eighty five station telephone board with twelve trunk lines to the main exchange. This is augmented by an automatic inter-communicating system of one hundred stations. The combination of these two systems greatly increases the efficiency of handling of our telephone traffic.

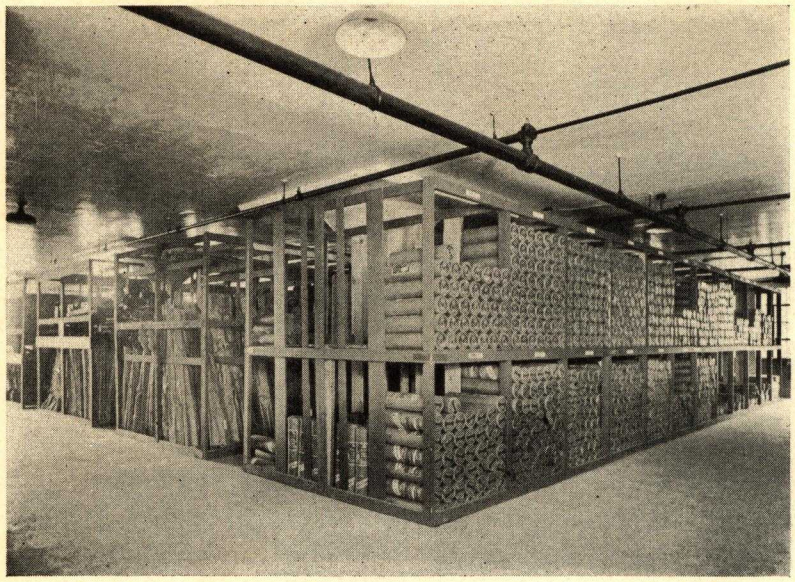

THIRD FLOOR

In the foreground the pneumatic tubes through which the orders are received on the various floors.

On the right the start of the conveyor system which after circling the entire floor automatically deposits baskets in spiral chutes shown in background which lowers them to packing floor.

ALBANY HARDWARE & IRON CO.

FIFTH FLOOR

Wire cloth and part of the steel goods racks.

Our plant is so large that the physical delivery of orders and communications is impractical so a pneumatic tube system is utilized and by this means we are able to dispatch orders or reports from the office to any of the floors in less than five seconds.

Steel shelving while generally considered more expensive than wood is really more economical in the end. It enables us to supply our customers with unit packages that are clean and in good condition and at the same time helps our stock clerks to keep their stocks complete.

To insure our ability to serve our customers at all times we have anticipated the hazard of fire. Our building is protected throughout by Grinnell Automatic fire extinguishers and there are stand pipes for the use of the city fire department both front and rear on every floor. Besides this there are seventy, two and a half gallon fire extinguishers throughout the building.

By using all these facilities we are not only able to greatly reduce our overhead but can give better service. Since starting operations in our new building we have been able to ship ninety eight per cent of our orders on the same day they are received and by pricing and extending the orders while they are being worked in the warehouse we are about as prompt in invoicing.

Prompt service and complete stocks are essential to the wholesaler in better serving their trade and we feel that with our equipment and location we are in a position to solicit your fullest confidence.

SEVENTH FLOOR

In foreground rope, binder twine and cotton waste and in the background oil heaters.

General Office

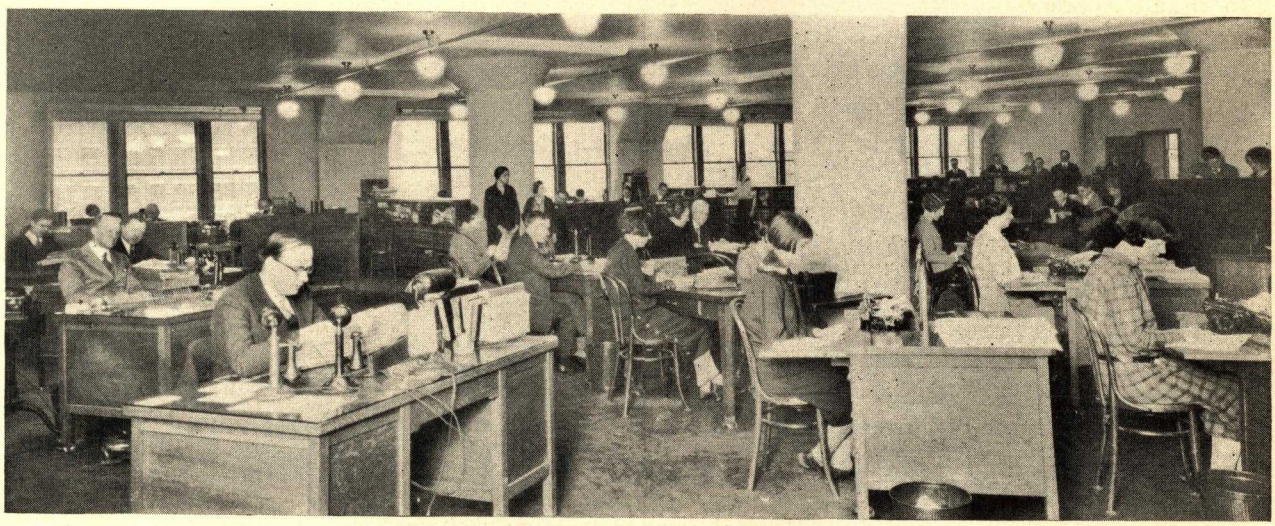

OUR general offices are situated in the front of the second floor of the warehouse building. They are approximately sixty-five by one hundred feet and have light on three sides. This, however, is augmented by an artificial system designed by lighting experts for our needs.

It is steam heated by means of radiators under each window and in unusually severe weather a reserve indirect heating unit is available to insure the comfort of the office. This unit is of sufficient capacity to change the air in the room once every four minutes and is used in the warm weather for cooling purposes.

All telephone and electric wires are laid in fibre conduits embedded in the concrete floor and the floor is covered with heavy linoleum for warmth and sound deadening.

Our bookkeeping, figuring and billing are handled by electrically operated machines of the latest type while dictating and transcribing machines are used to expedite our correspondence.

An automatic addressing machine is used to expedite the heading up of our mail advertising and is also used on our statement work.

A complete printing plant handles all of our work except the printing of catalogues and embossing of our letter heads.

Probably the most unique machines in use are those used to provide copies of our orders so that each order may be worked on all the different floors and in the office at the same time. The orders as received from our salesmen are put through these machines and the various necessary copies are produced with amazing rapidity. In this way it is not necessary for one set of order clerks to wait for another set to finish with the original before beginning to work their items. All order clerks have a copy at the same time and the work of assembling is greatly expedited.

One copy never leaves the office and after being passed by credit department goes to pricing, figuring and checking department and is ready for billing as soon as master copy returns from warehouse. In this manner our bills are in the mail shortly after the bills of lading are written.

These are only a few more facilities which we have provided to better serve our customers. Service has always been our aim and we are always on the lookout for more modern methods and machines to improve our service to our wholesale customers.

ALBANY HARDWARE & IRON CO.

To Our Customers

WE take great pleasure in presenting you our new General Hardware Catalogue in which we show an extensive part of our line.

We have endeavored to make it a complete and up to date book that can be used not only as a reference book but also as a buyer's guide to assist you in selecting goods that you intend to purchase and to help you in writing up mail orders.

In this book we have listed only the items which are regularly carried in stock except in a few instances that are clearly marked. While we show part of our line of sporting goods we issue a special catalogue showing our full line.

We have not attempted to show any of our Auto accessories as this line changes rapidly and we publish a yearly catalogue of these.

Orders for special items are solicited and we will be glad to furnish information and prices at all times. Our buyer's library consists of over twelve thousand Manufacturers' catalogues and we have a resident buyer in New York City who takes care of our emergency orders and also keeps our buyers advised as to the trend of the market.

While we maintain a trained corps of traveling men we earnestly solicit your mail and telephone orders.

We thank our many friends and patrons for past pleasant business relations and hope they may continue.

ALBANY HARDWARE & IRON CO.

PARKER-KALON SHEET METAL SCREWS

Hardened

The qualities of a screw and tap combined. They cut into the metal like a tap and once screwed home, they make as good a fastening as a stove bolt or a rivet. Vibration can't work them loose. Punch or drill a hole a trifle smaller than the diameter of the screw.

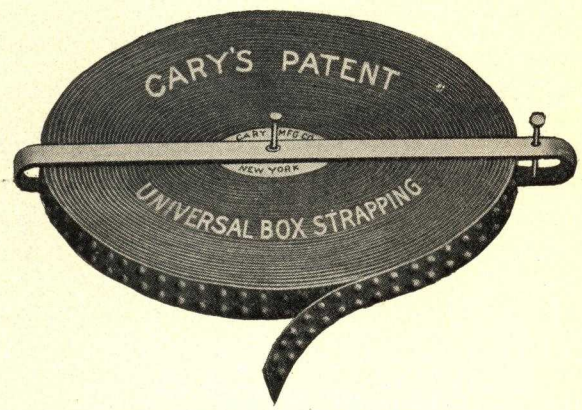

Drive the screw home with a screwdriver—that's all.

Round Head

No.	Diameter	Length	Packed	Wt.	Per Gro.
6x⅜	No. 6, 3/32 in.	⅜ in.	1 gro.	¼ lb.	**$0.72**

Pressed brick	28	2⅘x8¼ in.	28 x 60 in.	8 6/10	78 lbs.	**Market**
Rock face brick	28	2⅘x8¼ in.	28 x 60 in.	8 6/10	78 lbs.	**Market**

GALVANIZED ROOFING

Open Hearth Steel

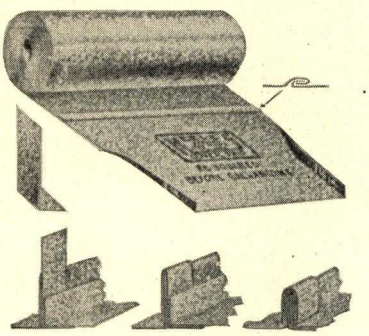

1¼ Inch Corrugations

Each sheet has twenty full corrugations 1¼ inches from center to center. Covers 24 inches when lapped one corrugation.

Gauge	Covering Width	Full Width	Actual Width	Weight Per Sq.	Per Sq.
28	24 in.	25 in.	25½ in.	87 lbs.	**Market**

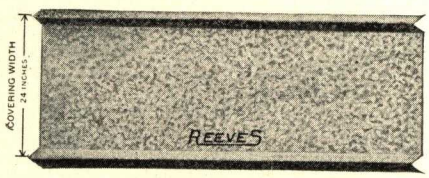

Above roofing stocked in 6, 7, 8, 9, 10 and 12 foot lengths.

Self-Capping Roll Roofing

Each sheet resquared before galvanizing, all edges coated. Each roll will cover 100 square feet when applied in the usual manner. All cross seams are offset, double locked and notched. The last seam is protected with wooden strip in shipping. No cleats furnished.

Gauge	Full Length	Covering Width	Actual Width	Weight Per Sq.	Per Sq.
28	50 ft.	24 in.	26½ in.	87 lbs.	**Market**

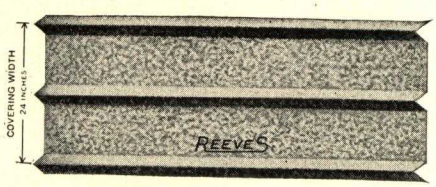

Two V Crimped

Fifty lineal feet of sticks required with each square, are furnished with roofing.

Gauge	Covering Width	Actual Width	Weight Per Sq.	Per Sq.
28	24 in.	25½ in.	84 lbs.	**Market**

Above roofing stocked in 6, 7, 8, 9, 10 and 12 foot lengths.

Three V Crimped

One hundred lineal feet of sticks required with each square when used under all crimps. Only fifty lineal feet required when not used under middle crimp.

Gauge	Covering Width	Actual Width	Weight Per Sq.	Per Sq.
28	24 in.	25½ in.	87 lbs.	**Market**

Above roofing stocked in 6, 7, 8, 9, 10 and 12 foot lengths.

Use one pound of 1½ inch galvanized barbed roofing nails and ¾ pound of lead washers to apply one square of 1¼ inch corrugated roofing.

Use same quantities of lead washers and 1¾ inch galvanized barbed roofing nails to apply one square of V crimped roofing.

ROOFING CAPS

Tin

Size	In 1 lb.	Packed	Per Lb.
1¼ in.	175 to 200	Bulk	**$0.15**

About 1¼ lbs. needed for 1 square of roofing

LEAD WASHERS

No.	Size	Packed	Per Lb.
12	½x⅛ in.	5 lb. Box	**$0.25**

About ¾ lb. needed for 1 square of roofing

ROOF CEMENTS

Certain-teed Plastic

A waterproof, weatherproof, durable, plastic roof cement. Asbestos fibre and asphaltic base oils. Will not slip or run under the sun's rays. 25 pounds will cover 100 square feet ⅛ inch thick.

Size	Packed	Weight	Per Lb.
1 lb. cans	36	55 lbs.	**$0.25**
5 lb. cans	12	70 lbs.	**.18½**
10 lb. cans	6	76 lbs.	**.16½**
25 lb. cans	1	30 lbs.	**.14½**
50 lb. cans	1	58 lbs.	**.12½**

No. 4 Rutland Paste

For patching and repairing roofs. Used for coating boiler brickwork and underground foundations. Made of asbestos fibre, vegetable oil and pure asphalt. Black or red.

Size	Packed	Weight	Per Lb. Black	Per Lb. Red
1 lb. cans	36	55 lbs.	**$0.13**	**.15**
5 lb. cans	12	78 lbs.	**.10**	**.12**
10 lb. cans	6	75 lbs.	**.10**	**.12**

ROOF COATINGS

Certain-teed Asphalt

A durable, permanent and weatherproof coating, which thoroughly penetrates and renews asphaltic roofings. Contains no coal tar. One gallon covers about 100 square feet.

Size	Packed	Weight	Per Gal.
1 gal.	6	60 lbs.	**$1.32**
5 gal.	1	44 lbs.	**1.02**

Certain-teed Asbestos

A durable, asbestos filled coating. Fire-resistant. For re-surfacing composition, metal and wood shingle roofs. One gallon covers about 100 square feet.

Size	Packed	Weight	Per Gal.
1 gal.	6	68 lbs.	**$1.42**
5 gal.	1	48 lbs.	**1.22**

No-Tar-In

A black or red elastic roof coating made of pure asphalt, asbestos fibre and slow drying oil. Can be applied if the day is hot or cold and the roof wet or dry. Not affected by acids, rust, corrosion or decay. May be used on ANY pitched roof of any material. Does not crawl, blister, sag, harden or peel. Coverages: 100 square feet to gallon on metal surfaces. 60 square feet to gallon on composition, concrete, canvas or wood surfaces.

Color	Size	Packed	Weight	Per Gal.
Black	1 gal.	6	67 lbs.	**$1.00**
Black	5 gal.	1	48 lbs.	**.90**
Black	25 gal.	1	225 lbs.	**.75**
Black	50 gal.	1	437 lbs.	**.60**
Red	1 gal.	6	67 lbs.	**2.25**
Red	5 gal.	1	48 lbs.	**2.13**
Red	25 gal.	1	225 lbs.	**1.98**
Red	50 gal.	1	437 lbs.	**1.89**

ROOF PAINTS

Liberty Elastic

An elastic rubber paint for use on felt, rubber, shingle or metal roofs, boilers, fences and bridges. One gallon covers from 250 to 400 square feet according to the condition of the surface.

Size	Packed	Weight	Per Gal.
1 gal.	6	76 lbs.	**$1.25**
5 gal.	1	52 lbs.	**1.00**
*½ bbl.	½ bbl.	310 lbs.	**.95**
* 1 bbl.	1 bbl.	560 lbs.	**.90**

Red-Kote

A bright red, wood and metal preservative paint made with pure English oxide. Will not fade. One gallon covers from 250 to 300 square feet depending upon what is to be covered and the condition of surface.

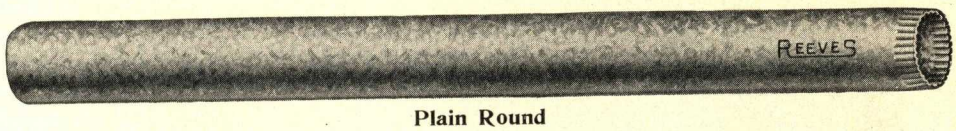

Size	Packed	Weight	Per Gal.
1 gal.	6	77 lbs.	**$2.00**
5 gal.	1	56 lbs.	**1.90**
*½ bbl.	½ bbl.	310 lbs.	**1.60**
* 1 bbl.	1 bbl.	560 lbs.	**1.55**

* For factory shipment.

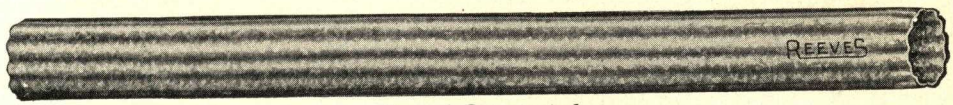

We carry a complete line of roof, varnish and paint brushes, refer to pages Nos. 804 to 807 inclusive.

Certain-teed	red	10 yrs.	90 lbs.	**4.40**

Above roofings are packed complete with cement, nails and full directions for laying

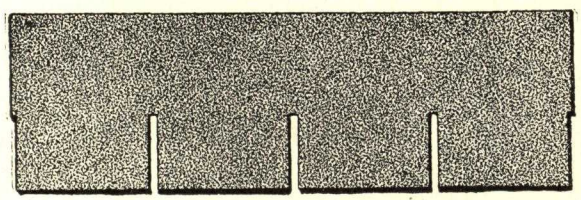

PREPARED SHINGLES

Hexagonal Slabs

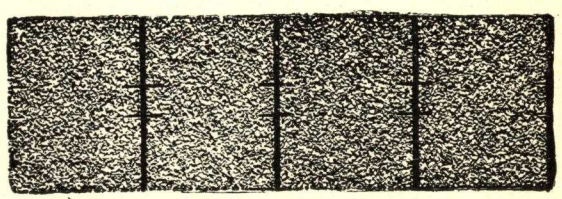

The double thickness of the butts throw into relief a clearly marked, unbroken shadow line. A wider scope is permitted for variegated roof patterns.

Self-aligning and self-spacing. 45 per cent less nails and 16 per cent less shingles are needed than of other types of strip shingles.

Cut-Out Strip

Four shingles in one, with cut-outs four inches deep, that give the appearance of individual shingles.

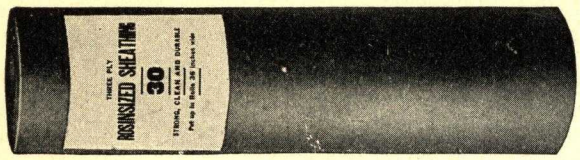

Four Width

Four shingles in one. When laid they give double coverage to all of roof and triple coverage at overlapping joints.

For swinging barrels under counters and shelves

Packed, 1 set, weight, 3¼ lbs. ..... each, **$1.25**

FIRE EXTINGUISHERS

Accurate

Guardene

Phomene

Accurate.—Tank equipped with a double acting brass pump which throws a powerful, steady stream 40 feet. Filled with plain water, to which is added Pyrene "Freeze-Proof." Replaces soda and acid extinguishers where there is danger of freezing.

Guardene.—Cold-rolled copper tank tested to 350 pounds pressure, only subjected to 100 pounds. The Guardene soda and acid charge is used.

Phomene.—Cold-rolled copper tank. Produces 22 gallons of foam with a stream 25 to 35 feet. Extinguishes burning oil, grease, enamel, tar, wax, shellac, lacquers, inflammable solvents or chemicals. Foam type. Replaces soda and acid extinguishers.

Badger

Pyrene

Pyrene Recharges

Badger.—Copper tank, uses a soda and acid charge. Standard equipment in homes, schools, warehouses, etc.

Pyrene.—Double acting pump throws a steady continuous stream, of a non-conductive liquid blanketing a fire of oil, gasoline or electrical origin. Ideal for protection of homes, schools and automobiles. Complete with hanging bracket.

1 qt.	1	1 lb.	**$2.00**

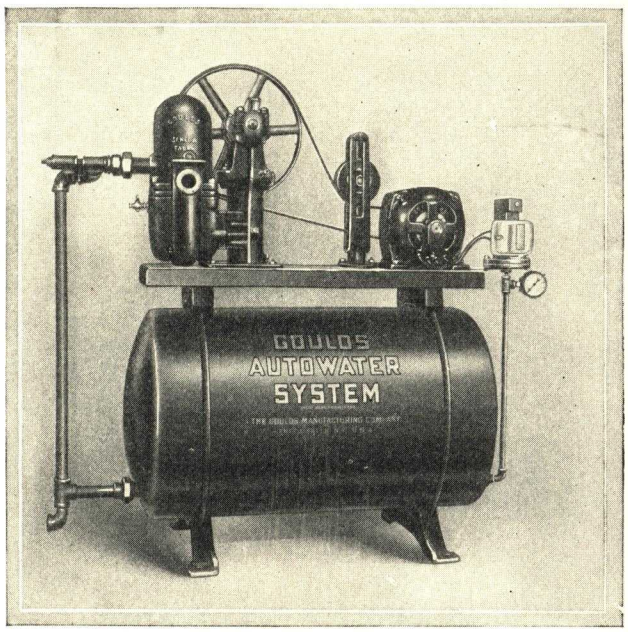

Red Crown Can

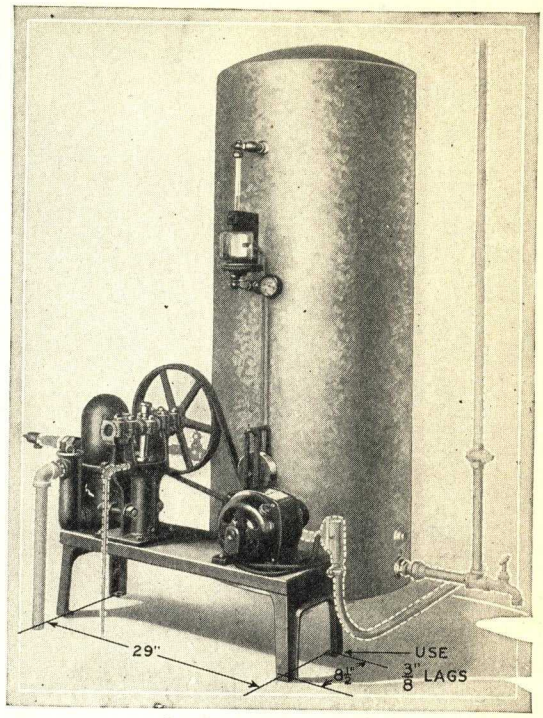

Operated as illustrated, by pulling the stopper out and tipping the can. The stopper is held in the can by a spring.

Capacity	Packed	Weight	Each
1 gallon	1	2½ lbs.	**$3.50**

GOULDS AUTOWATER SYSTEMS

Outfits, X210, X420

Outfits, W210, W420

These automatic systems use the Goulds Fig. 1695 single acting, outside packed, vertical plunger type, automatic oiling pump.

The repulsion induction alternating current motor of standard make for 60 cycle current.

A 1 inch flat, endless, waterproof leather belt is tightened by a floating pulley belt tightener.

Automatic, double pole electric pressure regulator starts motor at 23 pounds and stops it at 43 pounds. Simple air attachment.

Outfits Nos. X210 and X420

Complete with galvanized inside and outside welded steel tank of 32 gallons capacity, for storage and pressure.

Pump and motor mounted on heavy oak base. Completely assembled.

Pressure gauge, spring controlled relief valve with piping between pump and tank.

These outfits supply from shallow well, stream, spring or lake sufficient water for bathroom, kitchen and laundry and the X420 outfit has the additional capacity for the usual garden and lawn sprinkling and moderate stock watering.

Outfits Nos. W210 and W420

Tanks for these outfits are sold separately.

Pump and motor mounted on heavy oak base with sturdy cast iron legs. Completely assembled.

Standard spring type relief valve.

These outfits replace water motors, windmill pumps and other pumping machinery, operating with pneumatic or open tanks from cisterns, shallow wells, springs, lakes and streams, sufficient water for household and limited sprinkling. The W420 outfit will supply large suburban or farm homes, country clubs, rural schools, dairies and greenhouses.

Outfit	Capacity Per Hour	Maximum Suction Lift	Pipe Sizes Suction	Pipe Sizes Discharge	Motor Rating	Over All Dimensions	Weight	Each
X210	210 gals.	22 feet	¾ in.	¾ in.	¼ h.p.	48x20x41 in.	270 lbs.	**$125.00**
X420	420 gals.	22 feet	1 in.	¾ in.	⅓ h.p.	48x20x43 in.	300 lbs.	**145.00**
W210	210 gals.	22 feet	¾ in.	¾ in.	¼ h.p.	33x13x25½ in.	146 lbs.	**95.00**
W420	420 gals.	22 feet	1 in.	1 in.	⅓ h.p.	33x14x27½ in.	170 lbs.	**116.00**

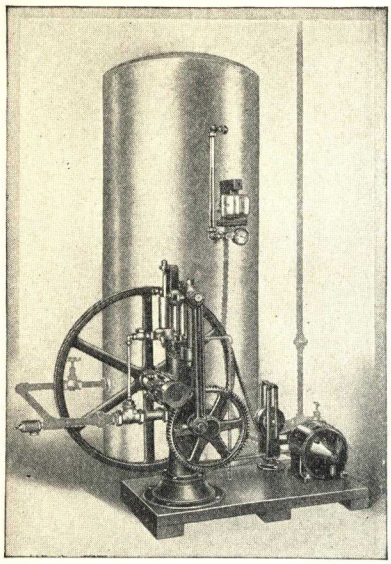

We stock these outfits with 60 cycle motors only, but can supply motors for any current

Above prices are for a repulsion induction motor of 110 or 220 volts, 60 cycles alternating current or for a 32, 110 or 220 volt direct current motor.

Pressure regulators and relief valves are included in above prices.

ALBANY HARDWARE & IRON CO.

GOULDS AUTOWATER SYSTEMS

Outfits, Z, ZA

These outfits use the Goulds Fig. 1697 pumping head with 4 inch stroke, having machine cut gear and pinion and wick lubrication.

Pumping head is driven by a repulsion induction alternating current motor.

A flat, endless, waterproof leather belt is tightened by a floating pulley belt tightener.

Automatic, double pole electric pressure regulator starts motor at 23 pounds and stops it at 43 pounds. Simple piston type air attachment and standard spring type relief valve.

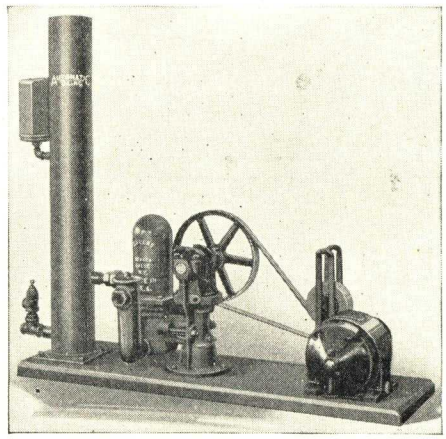

Fig. 1708, 2¼x4 inches, brass body cylinder. Top cap tapped for 2½ inch pipe, bottom cap tapped for 1 inch pipe.

These outfits are especially adapted for pressure tank service.

The over all dimensions of the outfit are 15x41x35 inches. Mounted completely assembled on a wood base 14x32 inches.

An anti-freezing attachment permits water to be carried below the frost line to destination. There is an extra charge for this.

We stock these outfits with 60 cycle motors only, but can supply motors for any current.

Outfit W4

This automatic outfit uses the Goulds Fig. 1695 single acting, outside packed, vertical plunger type automatic oiling pump.

Pumping head is driven by a repulsion induction alternating current motor.

A flat, endless, waterproof leather belt is tightened by a floating pulley belt tightener.

Simple air attachment and relief valve. Automatic, double pole electric pressure regulator starts motor at 23 pounds and stops it at 43 pounds.

Fig. 1708, 2¼x4 inches, brass body cylinder. Top cap tapped for 2½ inch pipe, bottom cap tapped for 1 inch pipe.

The over all dimensions are 13x42x50 inches. Mounted completely assembled on a heavy oak base.

The only difference between this unit and Outfit X210 (on preceding page) is in the tank. In this outfit the vertical welded steel tank is not intended for storage, but acts merely as a cushioning chamber for the automatic pressure regulator. The design of this chamber and the method of piping minimizes the possibility of water-logging, the principal source of trouble in small tank fresh water systems.

Outfit	Capacity Per Hour	Total Head	Max. Depth Cyl. can be lowered	Pipe Sizes Suction	Pipe Sizes Discharge	Well Rod	Motor Rating	Weight	Each
Z	150 gals.	150 ft.	50 feet	2½ in.	1¼ in.	7/16 in.	¼ h.p.	260 lbs.	**$135.00**
ZA	150 gals.	200 ft.	100 feet	2½ in.	1¼ in.	7/16 in.	½ h.p.	290 lbs.	**160.00**

Outfit	Capacity Per Hour	Maximum Suction Lift	Pipe Sizes Suction	Pipe Sizes Discharge	Motor Rating	Over All Dimensions	Weight	Each
W4	210 gals.	22 ft.	¾ in.	½ in.	¼ h.p.	42x13x50 in.	190 lbs.	**$97.50**

Above prices are for a repulsion induction motor of 110 or 220 volts, 60 cycles alternating current or for a 32, 110 or 220 volt direct current motor.

Pressure regulators and relief valves are included in above prices.

GOULDS PUMPS

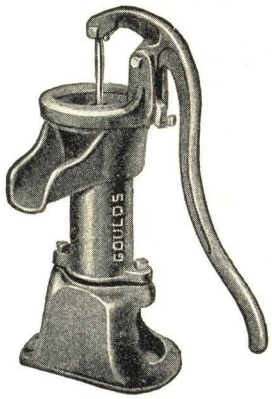

Fig. 205½

Fig. 205½

Pitcher Spout Pumps

Iron cylinder, polished inside. Revolving bearer top. Cut off base permits receptacle to be placed directly under spout. Anti-freezing by lifting the lever to extreme height, tripping the valve and draining the cylinder. Stroke 4 inches.

Fig.	No.	Cylinder	Capacity Per Stroke	Pipe	Suction Lift	Weight	Each
205½	**2**	3 in. iron	.12 gals.	1¼ in.	25 ft.	24 lbs.	**$4.75**
205½	**3**	3½ in. iron	.17 gals.	1¼ in.	25 ft.	26 lbs.	**5.25**

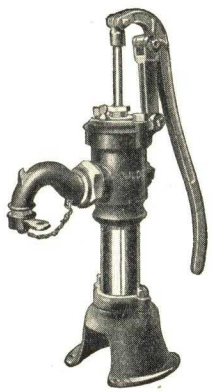

Fig. 1725

Figs. 1725 and 1726

"Universe" House Force Pumps

Revolving bearer tops. Brass cased plunger rods. White bronze valve seats. Threaded cock spout for attaching hose.

Back discharge for pumping into overhead tanks or distant points.

Anti-freezing by lifting the lever to extreme height, tripping the valve and draining the cylinder.

Stroke 4 inches. Both the back outlets and hose spouts are 1 inch but size 2 can be fitted for ¾ inch hose at no extra cost.

Over all heights: No. 2, 23½ inches, No. 6, 25 inches.

Fig.	No.	Cylinder	Capacity Per Stock	Pipe	Suction Lift and Force	Weight	Each

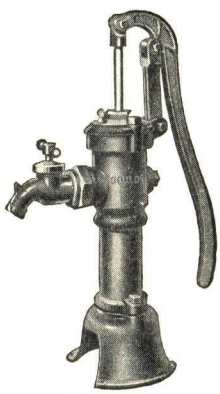

Fig. 1726

Fig. 1018

Set Length Anti-Freezing Lift Pump With Hand Top

Revolving bearer top. Closed spout with bucket hook. White bronze valve seat.

Water drains through drip hole in connecting pipe below frost line and prevents freezing.

A set length pump, 4 feet from base to bottom of cylinder, suitable for outdoor cisterns and shallow or deep wells, either dug or drilled, not deeper than 30 feet. If desired to use in deeper wells cylinder should be in the water or no more than 15 ft. above. 6 inch stroke. 19¾ inches from base to spout.

Fig.	No.	Cylinder	Capacity Per Stroke	Suction Pipe	Weight	Each
1018	**4**	3x10 in. iron	.18 gals.	1¼ in.	60 lbs.	**$7.60**

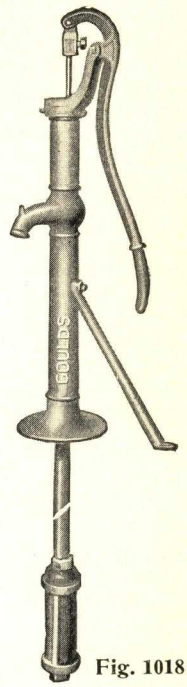

Fig. 1018

Fig. 551

Fig. 551

Set Length Anti-Freezing Lift Pump With Hand Top

Same description as to use, etc., as Fig. 1018 except has a heavier stock and measures 22½ inches from base to spout.

Fig.	No.	Cylinder	Capacity Per Stroke	Suction Pipe	Weight	Each
551	6	3½x10 in. brass lined	.25 gals.	1½ in.	80 lbs.	**$12.10**

Fig. 1625

Fig. 1729

Fig. 852½

Fig. 1625
Adjustable Base Anti-Freezing Lift Pump With Hand Top

Designed for the same general services and has the same general description as Fig. 1018 on the preceding page except it has an adjustable base, pipe stock instead of cast iron and different stroke and capacity.

Fig.	No.	Cylinder	Stroke	Capacity Per Stroke	Suction Pipe	Weight	Each
1625	**4**	3x10 in. brass lined	5 in.	.15 gals.	1¼ in.	59 lbs.	**$9.70**

Fig. 1729
Adjustable Base Anti-Freezing Force Pump With Hand Top

Revolving bearer top. Spout fitted for ¾ inch hose. Polished plunger rod operates through a brass stuffing box. White bronze valve seat.

Freezing prevented by water draining through drip hole in connecting pipe below frost line.

Shipped with base set 4 feet from bottom of cylinder making it suitable for wells 30 feet deep. If use at greater depth be desired place cylinder in water or no more than 15 feet above.

Fig.	No.	Cylinder	Stroke	Capacity Per Stroke	Suction Pipe	Lift and Force	Weight	Each
1729	**4**	3x10 in. brass lined	5 in.	.15 gals.	1¼ in.	50 ft.	72 lbs.	**$10.50**

Fig. 852½
Set Length Anti-Freezing Force Pump With Hand Top

A heavy, solid stock pump with back discharge for pumping into overhead tanks or other points. Fitted with nut and tube for ¾ inch hose.

Revolving bearer top. Polished plunger rod operates through brass stuffing box. White bronze valve seat.

Freezing prevented by water draining through drip hole in connecting pipe below frost line.

17½ inches from base to spout. Discharge pipe 1¼ inches.

For wells 30 feet deep. For greater depth place cylinder in water or no more than 15 feet above.

Fig.	No.	Cylinder	Stroke	Capacity Per Stroke	Suction Pipe	Lift and Force	Weight	Each
852½	**4**	3x10 in. brass lined	6 in.	.18 gals.	1¼ in.	60 ft.	80 lbs.	**$13.85**

GOULDS PUMPS AND HYDRANTS

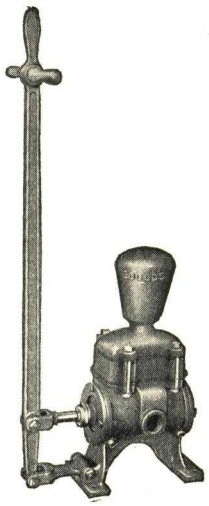

Fig. 1334

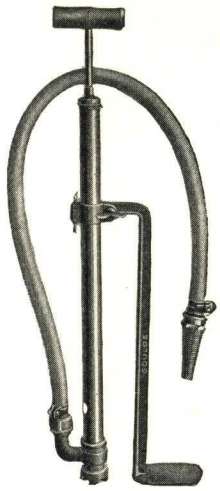

Fig. 1035

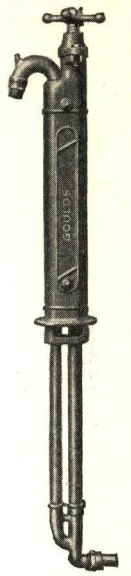

Fig. 1720

Fig. 1334

"New Alert" Double Acting Force Pump

Lugs cast on both ends of base will permit lever and piston to be operated from either end of cylinder. Plunger rod operates through a brass packing gland.

Valves are easily accessible, being grouped in a box above the cylinder which has two plugs for draining water to prevent freezing.

Has a suction lift of 25 feet and can be fitted with an air attachment for use with pressure tanks as well as a jack for power drive.

Fig.	No.	Cylinder	Stroke	Capacity Per Stroke	Suction Pipe	Discharge Pipe	Lift and Force	Weight	Each
1334	**4**	2½ in. brass lined	5 in.	.31 gals.	1¼ in.	1 in.	75 ft.	66 lbs.	**$21.00**

Fig. 1035

Plumber's Brass Force Pump

For removing obstructions in pipes. Complete with 3 feet of hose and brass conical tip to which can be attached pipe from ⅜ to 1 inch. Foot piece as illustrated supplied at extra cost.

Fig.	Cylinder	Stroke	Discharge	Pressure	Weight	Each	Foot Piece
1035	1 inch diam.	14 in.	⅜ to 1 in.	100 lbs.	4 lbs.	**$8.40**	**.75**

Fig. 1720

Anti-Freezing Hydrant

Brass valve, seat, nut, tube and plunger are heavy and renewable. By removing top cap valve can be drawn up through top of hydrant.

Anti-freezing as water drains off through holes drilled in bottom below frost line.

Each hydrant given a hydrostatic test at 125 pounds before leaving the factory.

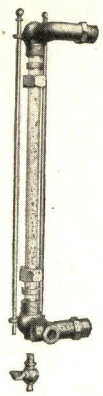

Fig.	Set in Ground	Inlet for Iron or Lead Pipe	Spout	Weight	Each
1720	36 in.	¾ in.	¾ in. hose	39 lbs.	**$8.10**

We can supply from factory any type of Goulds Pump that we do not illustrate on these pages, catalogue of the Gould line will be sent upon request.

GARAGE

PLUMB AXES

Plumb Axes are forged from one solid piece of steel—not two pieces doubtfully welded together. The bit remains hard after repeated grinding, far into the blade.

The head is hardened to a spring temper. It will not mash—in driving wedges, or rough work around the farm.

The eye will not buckle, or bend, nor allow the handle to loosen. And Plumb Axes are uniform. The name PLUMB on an axe is your guarantee that the shape, weight, proportions—the balance—are scientifically correct and that the material and workmanship in them are the finest obtainable.

Handles of high grade hickory, accurately shaped for true stroke and maximum striking power.

All PLUMB Axes on this and following pages are "Dreadnaught" Brand. Non-Rusting black finish. Mahogany stained handles, except Plumb's Autograph Axe which has natural colored handle.

PLUMB HATCHETS

Black Non-Rusting Finish

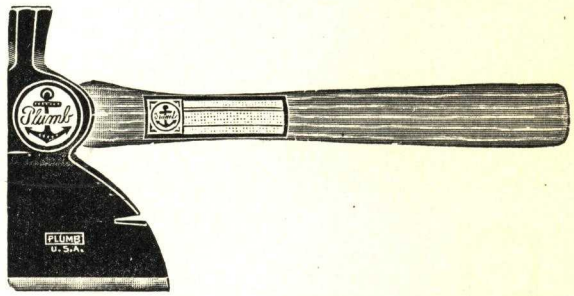

Unvarying quality is assured by advance methods of manufacture. Scientifically tempered by the PLUMB double tempering process—the head will not mash—the bit will stay sharp and will not become soft after a few grindings.

Air seasoned, second growth hickory handles are shaped to give perfect balance. Special anchoring keeps the heads from flying off.

This tool is a beading and center beading plane, plow, dado, rabbet, and filletster, match plane, sash plane and slitting plane. The plane is fitted with spurs for use across the grain, etc., and can be used either right or left hand. With each plane are furnished twenty-three cutters. A further line of twenty-three cutters and five special bottoms can be furnished for this plane. All metal parts are nickel plated. The handle, knob and fence are made of selected rosewood.

Packed, 1, weight, 9½ lbs.....each, **$15.00**

No. 55

This tool is a beading and center beading plane, plow, dado, rabbet, filletster, match, sash, slitting, and a superior moulding plane, and will accommodate cutters of almost any shape and size. The regular equipment sent with the plane comprises fifty-two cutters. A further line of forty-one cutters can be furnished. Cutters of practically any form can be used in the plane, which the owner can make from blanks or order from sketch. All metal parts of the plane are nickel plated. The handle and fences are made of selected rosewood, and every part is well finished.

Packed, 1, weight, 15¼ lbs.....each, **$30.00**

No. 237

No. 446

No. 237 steel head is 2 in. wide ⅛ in. thick. 6 inch spring tempered rule graduated in 32nds and 64ths.

No. 446 Micrometer Gauge. ½ inch movement of screw, reading in thousandths. 2½ inch spindle with two ½ inch and one 1 inch collars. Base 2¼ inches.

No.	Packed	Weight	Each
237	1	4 ozs.	**$1.50**
446	1	6 ozs.	**7.75**

No. 448

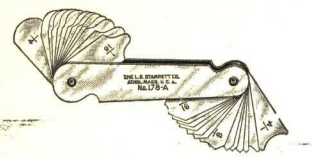

Vernier gauge. Steel head 2¾ in. wide ¼ in. thick. 6 inch blade graduated by vernier to thousandths of an inch on one edge, 64ths on the other.

Packed, 1, weight, 6 ozs. .....each, **$14.50**

ALBANY HARDWARE & IRON CO.

STARRETT TOOLS

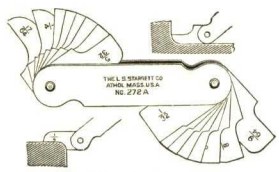

FILLET OR RADIUS GAUGES

No. 178A

30 leaves stamped to indicate radii by 64ths, from $\frac{1}{32}$ in. to $\frac{1}{4}$ in. (one half diametric size). Diameters are from $\frac{1}{16}$ in. to $\frac{1}{2}$ in. by 32nds.

Packed, 1, weight, 2 ozs. .....each, **$1.50**

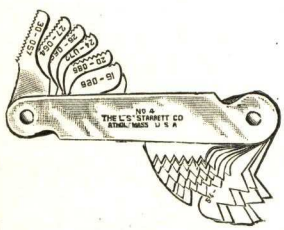

No. 272A

Radii of fillets, corners, etc., may be gotten. 16 leaves, with radii from $\frac{1}{32}$ to $\frac{17}{64}$ inches, inclusive, by 64ths.

Packed, 1, weight, 1 oz. .....each, **$1.25**

SCREW PITCH GAUGES

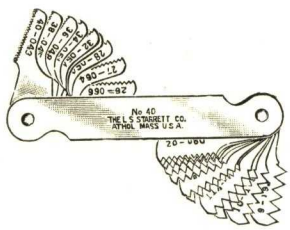

Nos. 4 and 6

No. 4, 24 pitches, 4 to 30, V thread as follows: 4, 4½, 5, 5½, 6, 7, 8, 9, 10, 11, 11½, 12, 13, 14, 15, 16, 18, 20, 22, 24, 26, 27, 28, 30. Also used as a 60° center gauge.

Packed, 1 in box, weight, 2 ozs. .....each, **$1.50**

No. 6, 30 pitches, 4 to 42, V thread as follows: 4, 4½, 5, 5½, 6, 7, 8, 9, 10, 11, 11½, 12, 13, 14, 15, 16, 18, 20, 22, 24, 26, 27, 28, 30, 32, 34, 36, 38, 40, 42.

Packed, 1, weight, 2 ozs. .....each, **$1.75**

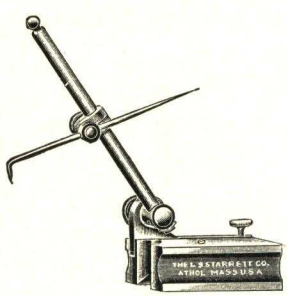

No. 40

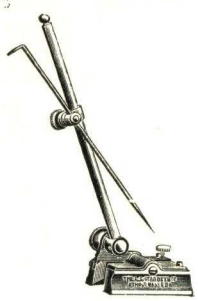

No. 40, 22 pitches, 9 to 40, V thread, (with 11½ and 27 pipe thread pitches), as follows: 9, 10, 11, 11½, 12, 13, 14, 15, 16, 18, 20, 22, 24, 26, 27, 28, 30, 32, 34, 36, 38, 40.

Packed, 1, weight, 2 ozs. .....each, **$1.25**

STARRETT TOOLS
THICKNESS GAUGES

No. 71

6 leaves as follows: .0015, .002, .003, .004, .006, .015. Range is from .0015 to .031. Leaves fold into metal case.

Packed, 12, weight, 8 oz. ..... each, **$0.90**

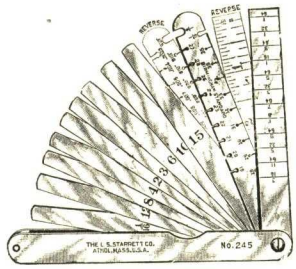

No. 172A

9 leaves as follows: .0015, .002, .003, .004, .006, .008, .010, .012, .015. Leaves ½ inch by 3 1/16 inches, fold into case.

Packed, 6, weight, 6 oz. ..... each, **$1.50**

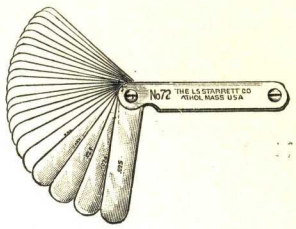

TAPER, WIRE AND THICKNESS GAUGE

No. 245

9 leaves as follows: .002, .003, .004, .006, .008, .010, .012, .015 and 1/16 inch. 1 leaf, 1/64 to 5/16 in. by 64ths, with 3 inch rule on the reverse. English Std., wire gauge and a 1/16 and 1/8 inch slot on another leaf.

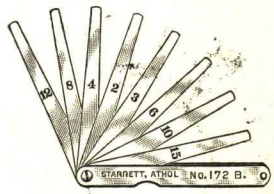

Packed, 1, weight, 5 oz. ..... each, **$5.00**

No. 72

22 leaves .004-.025. Each leaf has thickness stamped upon it. Leaves ½ inch by 2 5/16 inches, fold into case.

Packed, 6, weight, 14 oz. ..... each, **$2.50**

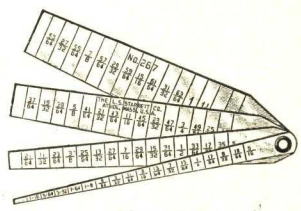

No. 172B

8 leaves as follows: .002, .004, .006, .008, .010, .012, .015. Leaves ½ inch by 4½ inches, fold into case.

Packed, 6, weight, 12 oz. ..... each, **$2.50**

TAPER GAUGE

No. 267

For brass and steel tube work. 4 tapering leaves from 1/16 to 1 1/16 inches by 1/64 inch. Also useful in setting calipers.

Packed, 1, weight, 2 oz. ..... each, **$4.00**

TELESCOPING GAUGE

No. 229

No. 229

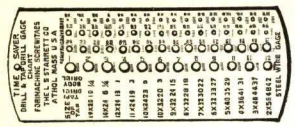

A better instrument than a leg caliper, more stiffness and no points to catch in blow holes. Range, ½ to ¾ inch hole.

Packed, 1, weight, 4 oz. ..... each, **$1.80**

ALBANY HARDWARE & IRON CO.

STARRETT TOOLS

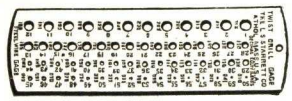

GAUGES

No. 185 For Drills and Taps

Figures 1 to 60 indicate number of drill, 228 to 040 size of hole in thousandths of an inch. Table on one side gives size of tap, thread pitch, and size of drill. 6¼x2$\frac{13}{16}$x$\frac{5}{64}$ inches.

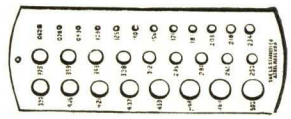

Packed	Weight	Each
3	16 oz.	**$2.40**

No. 186 For Drills and Wire

Figures 1 to 60 indicate number of drill, 228 to 040 size of hole in thousandths of an inch. 5½x1½x$\frac{5}{64}$ inches.

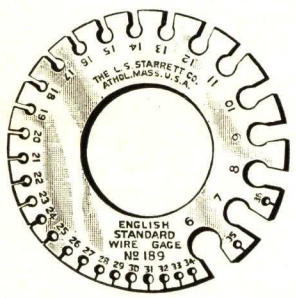

Packed	Weight	Each
3	12 oz.	**$2.00**

No. 187 Jobber's Drills

Figures 500 to 062 give sizes in thousandths of an inch. Fractions give sizes from $\frac{1}{64}$ to ½ inch by 64ths. 6¼x2$\frac{5}{16}$x$\frac{5}{64}$ inches.

Doyle Scale, 4 feet 8 inches long, figured 48 inches. Marked 8 to 20 feet.

Packed, ½ doz., weight, 5¼ lbs. ..... per doz., **$42.00**

RAPID RULE

Farrand

A six foot steel rule that does not fold but does roll into a compact case not much larger than a watch.

Pressure on the brakes releases the rule instantly for any length desired or for its full length.

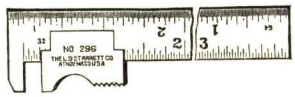

The combination of both flexibility and rigidity is surprising.

Figures and scale marks are in the hollow of the concave side of the rule in a deep blue color on a brilliant metallic background of white.

Not affected by ordinary climatic changes in temperature and practically rust proof.

Name	Length	Packed	Weight	Each
Farrand	6 feet	1	4 oz.	**$5.00**

STARRETT'S RULES

No. 296

Steel slide caliper rule, 4x⅝x$\frac{1}{16}$ inch, jaws ½ inch deep. No. 4 graduation with 32nds and 64ths on one side and 8ths and 16ths on reverse.

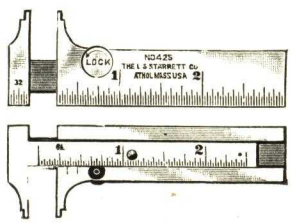

Packed, 3, weight, 4 oz. ..... each, **$2.50**

No. 424

Slide rule caliper and circumference gauge. 3½ inch capacity, (about 11 inches circumference), jaws being 1$\frac{5}{16}$ inches deep it will caliper to 2½ inches. 32nds of an inch standard and 16ths of an inch circumference measures.

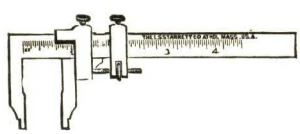

Packed, 1, weight, 4 oz. ..... each, **$4.75**

No. 425

Pocket slide caliper rule. Graduated 32nds on stock and 64ths on the slide. The latter can be locked.

No.	Length	Packed	Weight	Each
425	3 in.	1	4 oz.	**$4.00**
425	5 in.	1	5 oz.	**5.00**

No. 426B

Caliper rule and square combined, for inside and outside measurements. One adjustable and one firm jaw. Graduated 64ths on one side, 100ths on reverse. Length, 4 inches, jaws 1½ inches deep.

Packed	Packed	Weight	Each
Without Case	1	4 oz.	**$10.20**
With Case	1	5 oz.	**11.95**

Factory packing is 4, 8 or 12 to a crate of all chests except machinists and garage chests which come 2 in a crate

TOOL BAGS

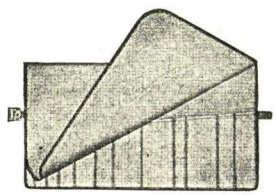

No. 225

For Masons and Plasterers

Made of one piece of heavy No. 6 (24-ounce) white duck extending around bottom, viz., a one-piece bag. Bottom two thicknesses of No. 6 duck with heavy strawboard filling. All sewing by lock-stitch machine so it cannot rip unless every stitch is cut. Each bag has lock and key. Double 12-gauge steel frame riveted to body of bag, which will outwear any manner of sewing. Sides are connected with genuine leather welt. Bottoms supplied with five steel studs.

No.	Size	Packed	Weight	Each
225	18x15½x5½ in.	1	3¼ lbs.	**$4.50**
225	20x15½x5½ in.	1	3½ lbs.	**5.00**

TORCHES

No. 48S

Improved single needle burner generates a flame adapted to all requirements. Removable burner hook. Automatic pump in handle quickly secures required air pressure. Ideal for toolbox or kit. 1⅞ in. thick, 5 in. long, 8½ in. high.

No. 208

Improved double needle burner generates from 200 to 300 degrees more heat. Both needles are blunt, wire tip in upper needle cleans the orifice, lower needle regulates the flame. Recommended for economy in time and fuel.

Nos. 32, 38

No.	Capacity	Fuel	Packed	Weight	Each
48S	1 pint	gasoline	1	4¾ lbs.	**$22.00**
208	1 quart	gasoline	1	5¼ lbs.	**19.00**
32	1 quart	gasoline	1	5¼ lbs.	**18.00**
38	1 pint	gasoline	1	4 lbs.	**17.00**

146	1 pint	gasoline	1	3¾ lbs.	**14.00**

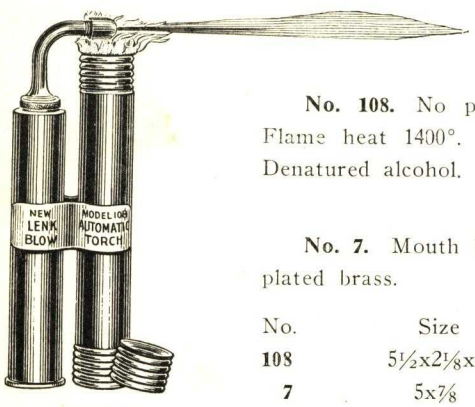

Nos. 144, 146

Improved single needle burner generates over 300 degrees more heat than any other torch that burns low test fuels perfectly.

Bronze metal burner, open type generator, single needle, produces a steady blue flame.

Hooks on above torches are removable

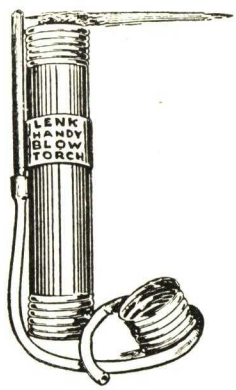

No. 108
Automatic

No. 108. No pumping, no priming, blows itself. Flame heat 1400°. Non-leakable nickel plated brass. Denatured alcohol.

No. 7. Mouth blown. 1200° needle flame. Nickel plated brass.

No.	Size	Packed	Weight	Each
108	5½x2⅛x1	6	2 lbs.	**$1.50**
7	5x⅞	6	1 lb.	**.75**

No. 7

FIRE POTS

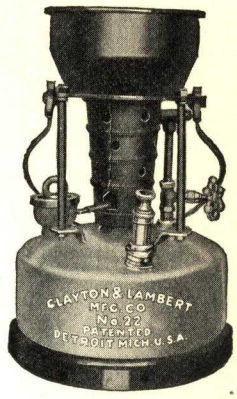

No. 1

No. 1 — Improved double blunt needle burner. Upper needle cleans orifice, lower needle controls flame. Simultaneously will heat a pair of large soldering coppers and melt a 6 inch pot of metal. By removing top section, the base with burner may be used as a torch or brazing fire. For gasoline.

No. 22 — Tapered needle valve controls fire better. Brass fittings. Steel coil and connecting pipe. Heavy steel shield and three piece coil cup. For gasoline.

The tools on this page are carried in stock with motors for 110 volts. Motors for 32, 220 and 250 volts can be furnished for which we will quote prices on application.

BLACK AND DECKER ELECTRIC GRINDERS

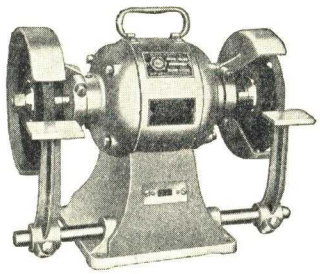

No. 1 Valve

The spindle oscillates back and forth, instead of revolving, with a motion similar to grinding by hand. 500 oscillations per minute. 15 foot cable and plug.

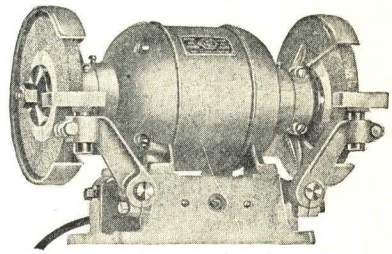

Portable

For cutting and notching tubing and bar stock. Grinding castings, welds, etc. Buffing and polishing. Sharpening tools, etc., 15 foot cable and plug.

6 Inch Bench

Two 6x½ inch wheels, one coarse and one fine. Two wheel guards, two tool rests. Electric cable fitted with attachment plug and switch.

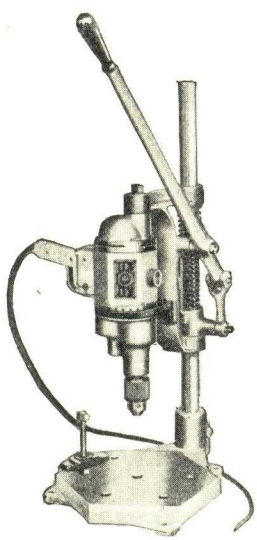

8 Inch Bench

Two 8x¾ inch wheels one coarse and one fine. Two wheel guards, two adjustable tool rests. Toggle switch in base.

No. or Size	Kind	Idle Speed	Packed	Weight	Any Voltage
No. 1	valve		1	15 lbs.	**$34.00**
5 inch	portable	3400 R.P.M.	1	27 lbs.	**80.00**
6 inch	bench	3600 R.P.M.	1	50 lbs.	**56.00**
8 inch	bench	3600 R.P.M.	1	105 lbs.	**108.00**

R.P.M. on 6 and 8 inch Bench Grinders is for 60 cycle A.C. and D.C. Other cycles differ. Specify Current and Cycle on above Grinders.

BLACK AND DECKER DRILL STANDS

Bench

BENCH

This bench drill stand makes a rigid, serviceable drill press out of a Black and Decker portable electric drill in a few seconds.

It takes ⅜, ½, 9/16, ⅝ and ⅞ inch Black and Decker portable electric drills.

Be sure to specify size and type shown on name plate of drill, so that proper adapter may be supplied with stand.

Packed, 1, weight, 83 lbs. .....each, **$28.00**

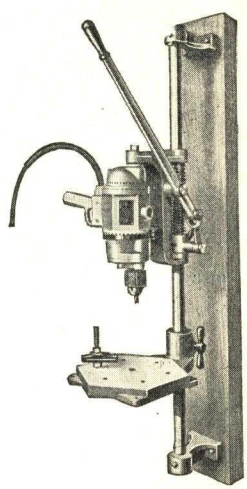

POST

This post drill stand is particularly adapted to shops where bench space is limited.

It makes a rigid serviceable drill press out of ⅜, ½, 9/16, ⅝ and ⅞ inch Black and Decker portable electric drills.

Each outfit is shipped lag-screwed to a board 1¾x5½x52 inches.

Packed, 1, weight, 135 lbs. .....each, **$32.00**

LANSING DRAG SCRAPERS

This scraper is made from high grade, heavy steel.

The bowl is pressed into curved shape, without sharp corners, angles or overlaps.

The swivel, by which the scraper is pulled, works easily, and allows the bowl to adjust itself to any unevenness in the ground without losing off dirt.

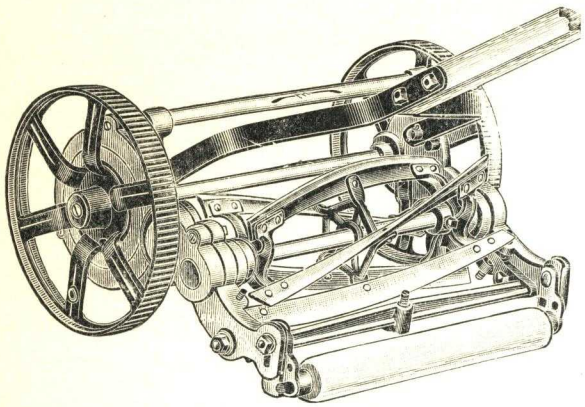

It is always shipped with runners unless otherwise ordered.

Double bottoms supplied at extra cost.

No.	Capacity	Size	Weight	Each
1	7 cu. ft.	33½x32x11½ in.	98 lbs.	**$13.30**
2	5 cu. ft.	31½x29x11½ in.	88 lbs.	**12.75**

ALBANY HARDWARE & IRON CO.

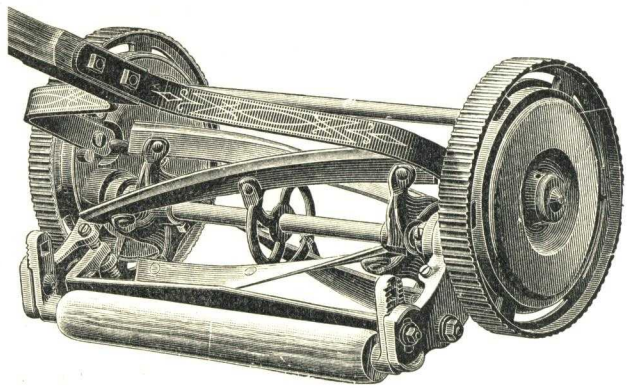

LAWN MOWERS

King, High Grass, Ball Bearing

This mower has ball bearing driving wheels and revolving cutter making it noiseless and light running. Spoked wheels 10 inches diameter, open frame. Revolving cutter 6 in. diameter with 5 cutting knives. Stationary knife bar is of crucible steel and mounted on steel cones. Patented adjustment in center of knife as well as each end. Triple train gears.

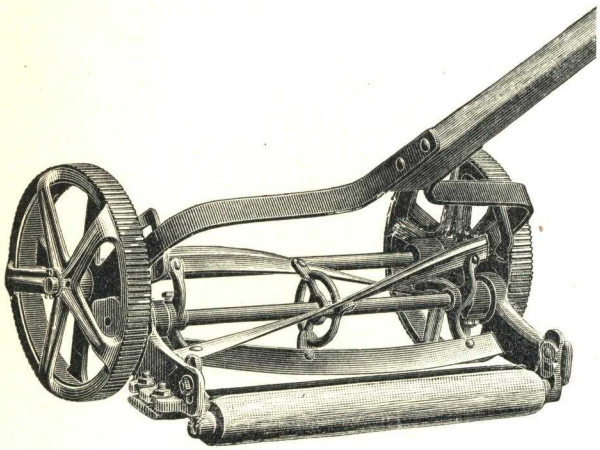

Size	Packed	Weight	Each
14 in.	1	63 lbs.	**$18.75**
16 in.	1	65 lbs.	**19.90**
18 in.	1	69 lbs.	**20.80**
20 in.	1	72 lbs.	**21.60**

Diamond No. 5, Ball Bearing

This mower has a 4 bladed, ball bearing, crucible steel revolving cutter, 6 inches in diameter. The wheels are 10 inches in diameter. Cones and cups are of solid steel perfectly ground and dust proof. Stationary knife mounted on steel cones.

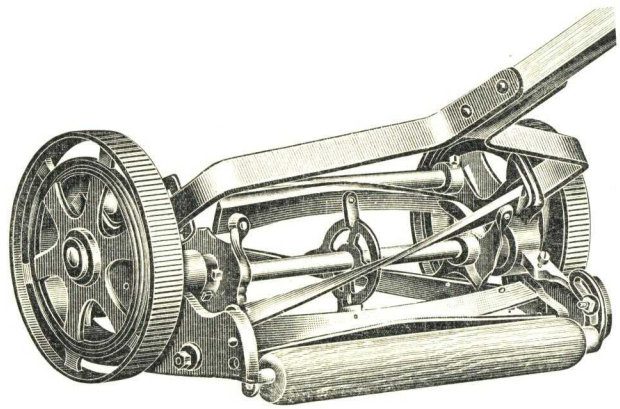

Size	Packed	Weight	Each
12 in.	1	46 lbs.	**$13.50**
14 in.	1	48 lbs.	**13.50**
16 in.	1	51 lbs.	**14.20**

No. 22

Vermont pattern. Excellent quality steel blades, natural finish. Good handles with brace plates.

No.	Blade	Packed	Weight	Per Doz.
22	plain	1 doz.	17 lbs.	**$4.15**

CORN HUSKERS

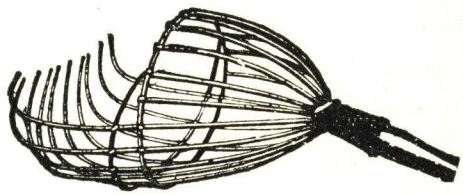

No. 0

Cold rolled steel nickel plated. Three finger strap and buckle adjustment. Grain leather.

No.	Length	Packed	Weight	Per Doz.
0	4½ in.	3 doz.	1½ lbs.	**$1.20**

FRUIT PICKER

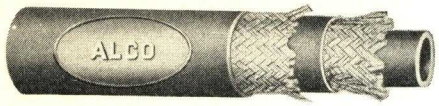

Penn

Made of heavy galvanized wire, to be fastened to a pole. For apples, pears, peaches, etc.

Name	Packed	Weight	Per Doz.
Penn	1 doz.	9 lbs.	**$6.75**

ALBANY HARDWARE & IRON CO.

GARDEN HOSE

Alco

A black five ply, three rubber and two braid, high grade hose. Noted for strength and durability. Very flexible, easily handled and will not kink.

Size	Packed	Feet in Pound	Per Foot
⅝ in.	500 ft. bale	3.00	**$0.16**
¾ in.	500 ft. bale	2.80	**.17¼**
1 in.	500 ft. bale	.52	**.28**

Coupled

Size	Packed	Wt. Per Section	Per Section
⅝ in.	25 feet	8½ lbs.	**$4.25**
⅝ in.	50 feet	17 lbs.	**8.25**
¾ in.	50 feet	18 lbs.	**9.00**

BB

A black three ply, two rubber and one braid, good grade hose. Flexible and easily handled. Corrugated cover.

Size	Packed	Feet in Pound	Per Foot
⅝ in.	500 ft. bale	3.00	**$0.14¾**

Coupled

Size	Packed	Wt. Per Section	Per Section
⅝ in.	25 feet	7 lbs.	**$4.00**
⅝ in.	50 feet	14 lbs.	**7.75**

We will furnish Alco and BB hose cut and coupled in any length desired.

Electric

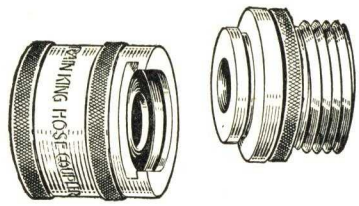

A black, five ply, three rubber and two braid, best grade hose. Corrugated cover. Very flexible and kink proof.

Coupled

Size	Packed	Wt. Per Section	Per Section
⅝ in.	50 feet	9 lbs.	**$11.25**

All the above hose is "measured and marked" every foot, the lengths being moulded in the rubber. Bales are approximately 500 feet long.

HOSE COUPLER

Rain King

Machined from solid brass. Fits nozzles, sprinklers and standard hose connections.

Instantly connects hose to faucet, sprinkler, nozzle and hose to hose.

Name	Packed	Weight	Per Doz.
Rain King	1 doz.	4 lbs.	**$7.20**

HOSE COUPLINGS

Sherman

Wrought brass with full threads

HOSE WASHERS

Good Luck

Tough, alive and springy, won't get hard, shrink or fall out of the coupling. One dozen in a box. 2 gross in a display case.

Size	Packed	Weight	Per Gro.
¾ in.	24 boxes	1¼ lbs.	**$0.90**

In Bulk

Size	Packed	Weight	Per Lb.
¾ in.	1 lb. box	1⅛ lbs.	**$0.60**

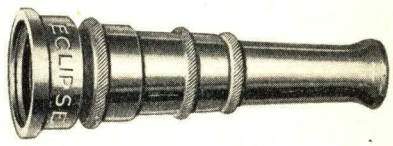

HOSE NOZZLES

Mystic

Cast brass. Produces both spray and straight stream. Is not a shut off.

Size	Packed	Weight	Per Doz.
¾ in.	1 doz.	4 lbs.	**$7.80**

Eclipse

Heavy cast brass. Regulates quickly from straight stream, to spray, to mist and to shut off.

Size	Packed	Weight	Per Doz.
¾ in.	1 doz.	5¾ lbs.	**$9.00**

Rain King

From a stream of 50 to 60 feet long to a spray 6 to 10 feet wide in a quarter turn. No wear and no leaks.

Size	Packed	Weight	Per Doz.
¾ in.	1	¾ lb.	**$18.00**

HOSE PIPES

Shut Off

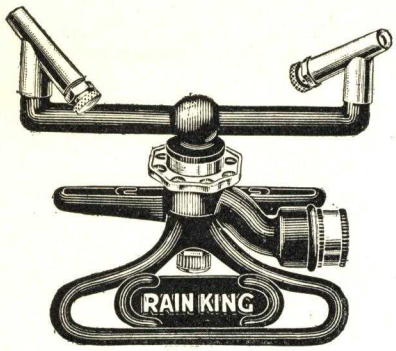

Cast brass with shut off, screw tip

Size	Packed	Weight	Per Doz.
¾x6 in.	½ doz.	3½ lbs.	**$13.50**
¾x8 in.	½ doz.	4 lbs.	**15.90**

¾ inch hose nozzles and pipes will fit ⅝ and ½ inch hose

ALBANY HARDWARE & IRON CO.

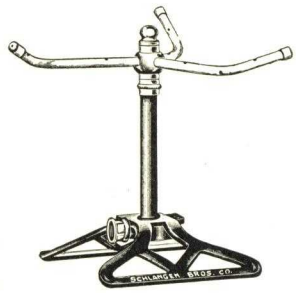

LAWN SPRINKLERS

Rain King

Revolving or stationary. Sprays fine, coarse, fast or slow. Bronze bearings and collars.

Size	Height	Packed	Weight	Each
¾ in.	6 in.	1	2¾ lbs.	**$3.50**

Schlangen

Brass head and arms, ball race in head. Heavy, japanned cast iron base.

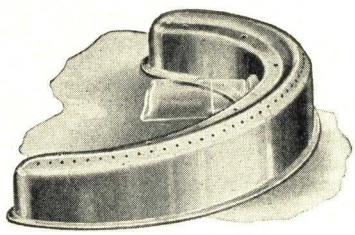

Size	Height	Packed	Weight	Each
¾ in.	12 in.	1	3 lbs.	**$2.00**

Fountain

Stamped brass, highly polished

Size	Diam.	Packed	Weight	Per Doz.

Half Fountain

Stamped brass, highly polished

Size	Diam.	Packed	Weight	Per Doz.
¾ in.	8 in.	½ doz.	½ lb.	**$8.75**

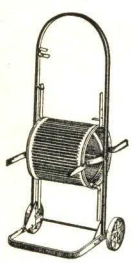

2 Purpose Rain King

Combination stationary spray and nozzle. Controlled by locking wing nut.

Size	Height	Packed	Weight	Each
¾ in.	6 in.	1	1¼ lbs.	**$2.00**

HOSE REELS

Victor

Nos. B10, B20

Victor

Channel steel frame. Cast iron wheels. Solid steel reel arms. Heavy corrugated steel drum. Ring on side of frame prevents unwinding of drum and clip holds nozzle for spraying.

Nos. B10, B20

Tubular steel frame and rims. Steel spokes and steel reel head. Corrugated galvanized sheet steel drum. Weight of hose is carried on the rims. Frame can be tilted to ground to form a stand on which to revolve drum.

	Capacity		Packed	Weight	Each
Victor	75 ft.	¾x3	2	25 lbs.	**$3.00**
B10	100 ft.	¾x3	1	15 lbs.	**6.00**
B20	50 ft.	¾x3	1	17 lbs.	**6.50**

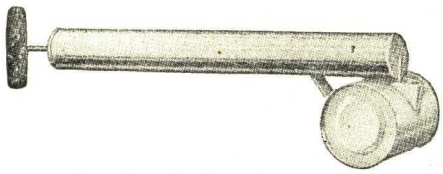

Detachable

Galvanized and malleable iron reel. Strong corrugated spokes, one of which and axle are hollow. Axle fits into a special faucet which is permanently attached to water pipe.

Reel revolves on faucet. Water will run through hose whether unreeled or not.

Diameter	Capacity		Packed	Weight	Each
20 in.	100 ft.	¾x3	2	8½ lbs.	**$6.00**

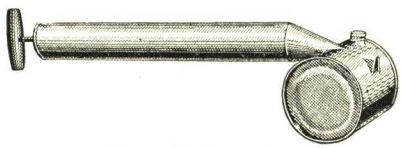

LOWELL SPRAYERS

No. 118 Jumbo Midget Tin

Tank: 3 inches diameter, 4 inches long. Pump tube, 1½ inches diameter, 13¾ inches long. ¾-inch can screw for filling. ¼-inch plunger rod. Length over all, 17¼ inches. Capacity, about 1 pint.

Packed, 1 doz., weight, 13 lbs. .....per doz., **$4.80**

No. 125 Ideal Tin

Tank: 4 inches diameter, 4½ inches long. Pump tube, 1¾ inches diameter, 13¾ inches long. ¾-inch can screw for filling. ¼-inch plunger rod. Length over all, 20¼ inches. Capacity, scant quart.

Cone passes through the solution tank, giving great strength and rigidity.

Single spray tube reaching to bottom of tank, making it possible to spray in any direction. Cannot get out of alignment.

Packed, 1 doz., weight, 15 lbs. .....per doz., **$6.00**

No. 105 Grand Galvanized

Tank: Tapering small end, 3 inches diameter; large end, 4 inches diameter, 5¾ inches long. Pump tube, 1½ inches diameter, 19½ inches long. ¾-inch can screw for filling. Length over all, 22½ inches. Capacity, one quart. Two short solution or spray tubes.

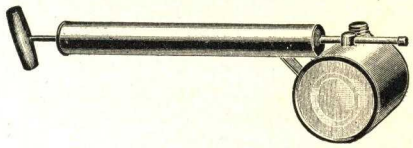

Packed, 1 doz., weight, 18 lbs.....per doz., **$7.50**

No. 101 B Glass Tank

Tank: 1 quart Mason jar. Zinc jar top. Agitator to mix solutions. ¼-inch plunger rod. Pump tube, 1½ inches diameter, 19½ inches long. Length over all, 22 inches. Two spray tubes. Large hand-hold.

Packed, 1 doz., weight, 28 lbs.....per doz., **$7.50**

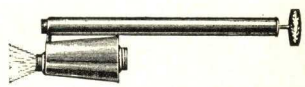

No. 115 Continuous Tin

Tank: 4¼ inches diameter, 4½ inches long. Pump tube, 1½ inches diameter, 13½ inches long, ¾-inch zinc can screw for filling. ¼-inch plunger rod. Length over all, 19½ inches. Solution tank, IX tin. Two spray caps, one straight, the other angle, for spraying under side of leaves. $\frac{3}{16}$-inch brass ball check valve, non-corrosive.

Operates continuously. Will handle all solutions, insecticides, disinfectants, cattle fly oils, etc.

Packed, 1 doz., weight, 17 lbs.....per doz., **$9.50**

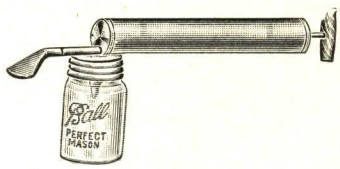

No. 108 Blow Powder Sprayer

Tank: Tin tapering form. Small end, 3 inches diameter. Large end, 4 inches diameter. Tank, 5¾ inches long, 2-inch can screw on back end for filling. ¼-inch plunger rod. Air chamber, 1½ inches diameter, 19½ inches long. Length over all, 22½ inches.

Successfully handles poisons and disinfectants in powder form. Valve arrangement is such that no powder or dust can reach the plunger leather.

Packed, 1 doz., weight, 18 lbs.....per doz.., **$10.25**

No. 131 Blow Powder Sprayer

Pump Cylinder: 1¾ inches diameter, 14 inches long. Length over all, 21½ inches. Reservoir, 1 pint Mason fruit jar.

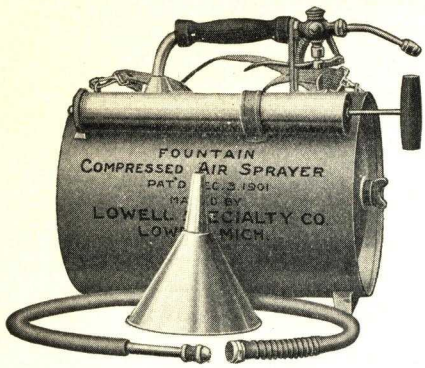

Sprayer is easy of operation. Fill reservoir with dry powder, such as Paris Green, Hellebore, powdered Arsenate of Lead, etc.

Size of spray regulated by operation of plunger.

Elbow reversible, enabling operator to spray up or down.

Packed, 1 doz., weight, 22 lbs.....per doz., **$10.25**

LOWELL COMPRESSED AIR SPRAYERS

No. 110

Devoid of complex or intricate parts. Automatic and positive in its action. Simple in construction. Strongest air pressure sprayer made—standing five times the pressure necessary to operate. Galvanized steel aluminized.

Brass pump 1⅝ inches diameter by 12 inches long. Placed on outside of tank and detachable. Screws into a brass seat which contains a brass ball check valve.

Brass automatic controlling valve. Positive shut-off.

Automatic agitation.

Funnel has brass wire screen inserted used for filling.

Adjustable shoulder strap to accommodate operator.

3 feet ⅜ inch spray hose with nozzle and proper connection.

Short brass tube spray nozzle with proper connections. This nozzle is curved so by reversing it can be used for spraying under side of leaves.

Diameter, 9 inches; height, 13 inches; capacity, 3 gallons; weight, empty, 9 pounds; weight, loaded, 34 pounds.

Packed, 1, weight, 11 lbs.....each, **$7.25**

No. 210

Designed for spraying all small trees, shrubs, potatoes and general farm products. Also handles whitewash and disinfectants.

No. 24 gauge body and No. 20 gauge heads, galvanized steel tanks seamed, soldered and riveted throughout. Has an adjustable 7 ply blue halter webbing carrying strap with a snap on each end.

Seamless brass tube pump with specially treated leather disc valve 1¾x15 in.

Brass nozzle throws heavy mist-like spray or a straight stream.

Seamless brass tube discharge pipe. Fastened at top and bottom.

Malleable iron filling cap, screws on brass collar to hold pump cylinder tight.

Malleable iron D handle locks into filling cap for loosening or tightening pump head, used for charging tank with air.

Extras—Straight and curved 2 foot extension rods.

Shut off nozzle so constructed that one to six extensions can be used with control at end of hose at all times.

Diameter, 7¼ in., height, 20½ in., capacity, 4 gals., weight, empty, 8¾ lbs, weight, full, 28 lbs.

Packed, 1, weight, 10 lbs.....each, **$6.75**

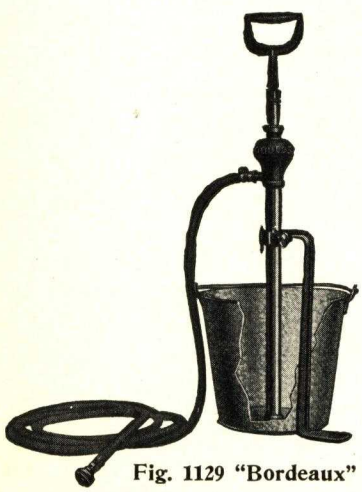

Fig. 1129 "Bordeaux"

BRASS EXTENSION RODS

For Nos. 110 and 210 sprayers

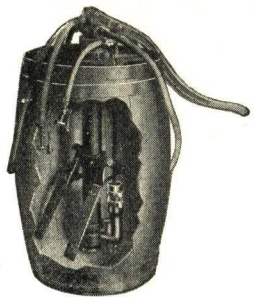

No.	Length	Packed	Weight	Each
34	2 ft.	1	¼ lb.	**$0.75**

GOULDS HAND SPRAYERS

A brass pump suitable for garden or green house work. It is fitted with ball valves which are proof against action of acids and oils. The hose is attached to pump by brass coupling. No suction hose is needed as the pump rests in pail with malleable iron foothold outside. Complete with 3 feet of ⅜ inch discharge hose and Seneca Nozzle.

Packed, 1, weight, 6½ lbs.....each, **$6.75**

GOULDS BARREL SPRAYERS AND PARTS

No. 1744C "Pomona"

Sufficient capacity to supply two leads of hose and four nozzles. The plunger, plunger connection, gland, valves, valve seats and strainers are of solid bronze. All working parts are simple and so located that they can be easily removed and cleaned. The air chamber is of steel and has a large capacity making it easy to maintain the pressure and giving smooth operation. The lever is adjustable to 3, 4 or 5 inch stroke. The plunger is 2½ inches diameter. The agitator is very simple yet effective and is operated by pump lever. Supplied with 15 feet of ⅜ inch hose and Mistry Jr. Spray Nozzle. Price does not include barrel.

Packed, 1, weight, 66 lbs.....each, **$28.25**

No. 1188C "Fruitall"

A simple, light weight, high grade sprayer. All working parts are bronze. Large capacity steel chamber, paddle type agitator. Sufficient capacity to supply two leads of hose and two nozzles. Can be used for cold water painting and whitewashing.

Packed, 1, weight, 41 lbs.....each, **$18.25**

SPRAY HOSE

Velvet

A black, seven ply, three braid and four rubber, braided and moulded hose. For spray pump use to 300 pound working pressure. In continuous length. ⅜ in.

Packed, 500 ft., weight per foot, 3/10 lb.....per foot, **$0.30**

NOZZLES

Fig. 81 "Seneca"

By means of adjusting screw the discharge can be graduated as required and remains fixed. The nozzle may be cleaned by turning plug across opening. For ¼ inch pipe.

Packed, 1, weight, ⅜ lb.....each, **$1.15**

Fig. 1688 "Mistry Jr."

Made of brass with hardened steel disc placed in discharge cap which can be removed and new one inserted. Two steel discs are furnished with each nozzle, one for coarse and one for fine spray. For ¼ inch pipe.

Packed, 1, weight, ⅜ lb.....each, **$1.10**

COUPLINGS, BUSHING, NIPPLE

Fig. 65

Brass coupling for single nozzle, small end ¼ inch pipe thread to fit Goulds spray nozzles, large end cut to fit ¾ inch male hose coupling.

Packed, 1, weight, 3 oz. .....each, **$0.20**

Fig. 67

A brass coupling cut for ¼ inch pipe on one end and the other end sharp ridged for ½ inch hose.

Packed, 1, weight, 1 oz.....each, **$0.25**

Fig. 89

Double male brass bushing, one end ¾ inch iron pipe thread, the other end ¾ inch hose thread.

Packed, 1, weight, ¼ lb.....each, **$0.30**

Fig. 90

A brass nipple, one end ¼ inch pipe thread female, the other end ¾ inch hose thread male.

Packed, 1, weight, ¼ lb.....each, **$0.35**

STOP COCK

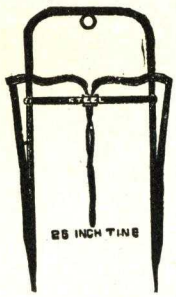

No. 54

A brass stop cock with a stuffing box that prevents dripping. ¼ inch female pipe thread in each end.

Packed, 1, weight, 7 oz.....each, **$0.85**

COMMUNITY PLATE

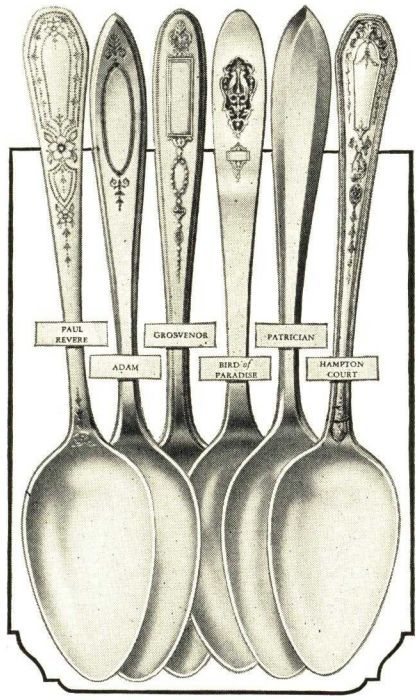

Illustration of the Six Patterns

The Bird of Paradise pattern, illustrating the various pieces, is shown on the following pages

COMMUNITY PLATE

A triumphal procession of period artistry—an impressive revealment of the value of reliability—stands alone in ability to bring gracious aid to the most capricious seeker of charm in table decoration.

* * * Enduring in service, but ever new and ultra modern in spirit, in setting, and adaptability to the changing needs of smart entertaining, Community Plate has won for itself a permanent place in the confidence of people of discriminating taste and judgment of value * * *

HALF A CENTURY

of graceful service is built into every piece by artisans whose life work it is to make the best in Silverware—and who pledge the replacement of any piece that fails of this exacting requirement.

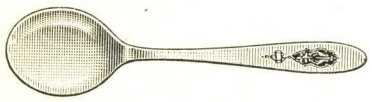

ALBANY HARDWARE & IRON CO.

TOILET CLIPPERS

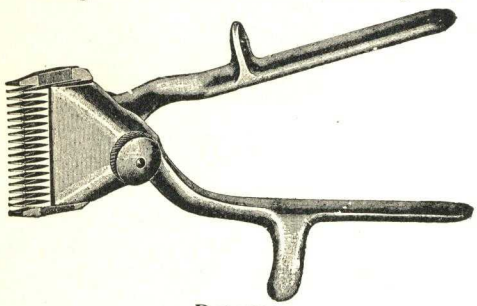

No. 00 American Gentleman

Highest quality. For barber's use. Light weight, easy spring action.

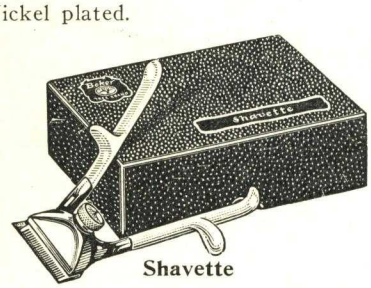

Hilton

Corrugated bottom blade. Nickel plated

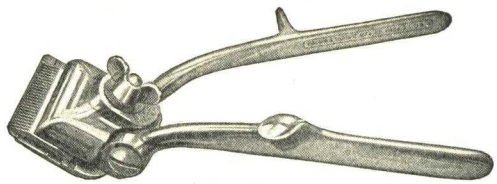

Paragon

Plain bottom blade. Gibraltar three coil music wire spring. Nickel plated.

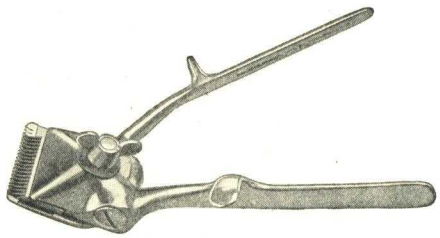

Shavette

A dainty clipper used by women for the removal of hair under the arms. Ivory handles and full nickel plated.

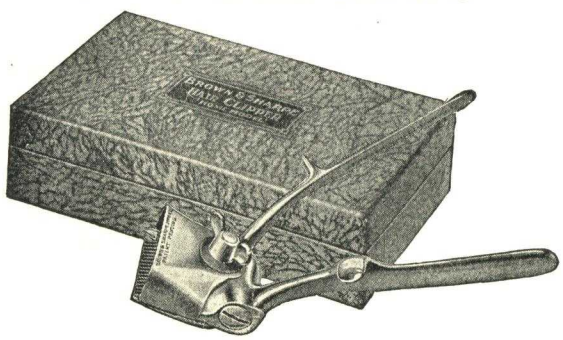

Bressant

For barber's use. Unexcelled cutting action, fine balance, comfortable grip and long life. Bottom plates about 2 inches wide.

Narrow Plate

For barbers and beauty shops. Especially useful for trimming around the neck and ears and bobbed hair. Comparatively small grip adapts it to fit a woman's hand. Bottom plates about 1½ inches wide and are interchangeable for both sizes. Spiral spring.

Home Model

For home use. Perfect balance and smooth cutting, light weight and a grip that readily fits a woman's hand. Hair catching attachment is easily removed.

BUILDER'S HARDWARE

We are herein illustrating only those designs of lock sets, locking devices, etc., in such finishes for which there is a steady demand.

But we are in the position of being able to quote on and furnish other designs and finishes of the complete Builder's Hardware line.

We will be pleased to estimate and quote from plans and specifications and furnish samples of any regular or special design in whatever finish may be selected.

Left Hand

Left Hand Reverse Bevel

HAND OF DOORS

The Hand of a Door is determined from the outside of a Building, Room or Closet. Reversed Doors are Doors opening out.

The term "Reverse Bevel" used under these cuts refers to the latch-bolt.

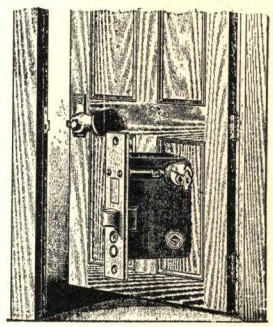

In ordering Locks or Latches that are not reversible, the Hand of the Lock must always be specified.

Left Hand Doors require Left Hand Locks.

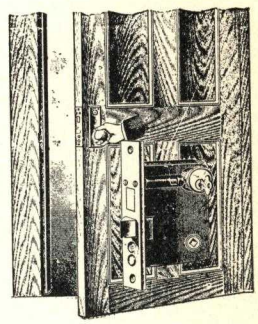

Right Hand Doors require Right Hand Locks.

Left Hand Reversed Doors require Left Hand Reverse Bevel Locks.

Right Hand Reversed Doors require Right Hand Reverse Bevel Locks.

Right Hand

Right Hand Reverse Bevel

FINISHES

When ordering articles of Builder's Hardware do not fail to prefix finish symbol to the number of any article, also tell us the description of the finish.

Finishes are grouped according to price. Those in each group are the same in price, the groups are different in price.

Group 01	Group 1	Group 2	Group 3	Group 7

AUTOMATIC EXIT BOLTS

EXIT BOLTS WITH PUSH BAR

Inside View

Single door with exit bolt

Inside View

Double doors with exit bolts on both doors

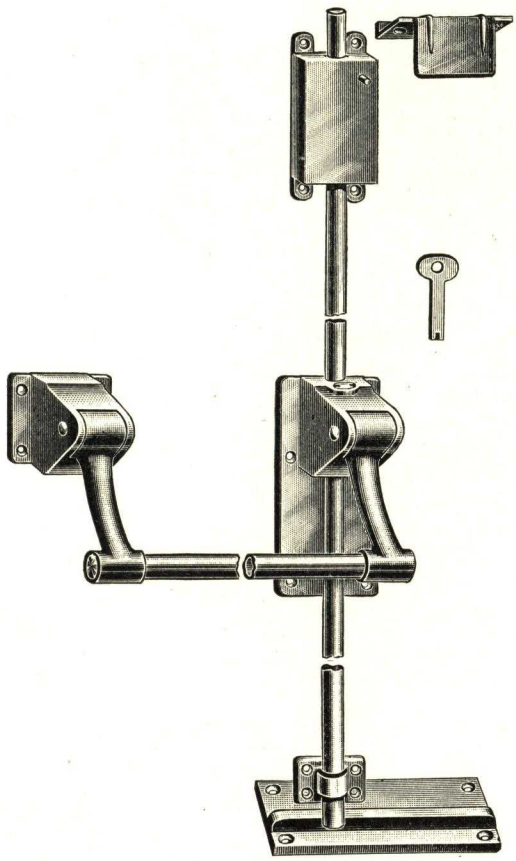

OPERATION

Pressure on the horizontal bar automatically retracts bolts at top and bottom, in which position they are held as long as the door is open.

When the door is closed, the bolts are automatically projected into the strikes, except when they are locked in retracted position by means of the key.

In ordering give height of door, width of door and width of stile, otherwise stock size will be furnished. Unless otherwise stated, thickness of stops will be figured at ½ inch. Standard height of cross bar from floor 3 feet, 2 in. will be so furnished unless otherwise ordered.

We invite inquiries on Exit Door Devices, send us full details of your requirements.

No. 02357 to 03357

SPECIFICATIONS

Reversible

Bolt rods $\frac{9}{16}$ in. dia.

Horizontal bar ¾ in. tubing

Brackets 5⅝x2⅞ in. and 2½x2⅞ in.

Top case 2¼x2⅜ in.
Top strike with return for stop ½ in. thick

Standard size for stock; for doors
8 ft. 6 in. high x 3 ft. wide

Height of bar from floor 38 in.

Weight 14 lbs. each

Requires stile at least 3½ in. wide

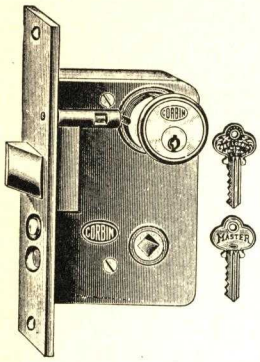

Stock size can be fitted to door of any height or width under 8 ft. 6 in. x 3 ft. by sawing off the end of the top bolt and horizontal bar to the required lengths.

*Not reversible, state hand. †½ inch rabbet. §Beveled ⅛ in 2 inches. ‡Has a No. 2145 thumb knob.

All locks on this page except No. 01339¼ have easy spring latch bolts.

Hubs: 5/16 inch bronze in No. 1349½. ⅜x5/16 inch bronze swivel in Nos. 563, 1323, 01339¼. ⅜x5/16 in. bronze swivel and 3/16 inch in No. 1343. ⅜x5/16 French spring swivel hub in Nos. 1341, 2341.

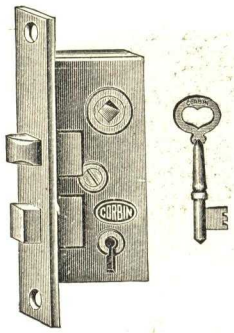

Note: Knob to thumb knob spacing in No. 1343 is 2⅜ in. Knob to cylinder spacing in No. 1343 is 3⅞ in., in No. 1349½ is 2½ in.

No. 563 master keyed in sets as desired with other Corbin master keyed cylinder locks.

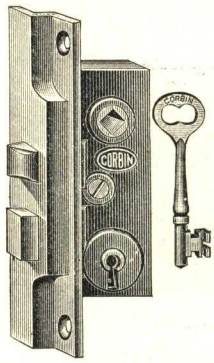

Nos. 1341, 2341 for use with lever handles. No. 1349½ for door handle outside, knob and escutcheon inside.

Lock No. 01339¼ for fire towers and stair cases has an auxiliary latch that automatically locks latch bolt so that it cannot be forced back when door is closed, but does not prevent key or knobs from operating latch bolt. Operated by knob from inside only, outside knob is always rigid. Turn of key in cylinder inside holds latch bolt retracted.

TYPES OF KNOBS
AND
METHODS OF MOUNTING KNOB ATTACHMENTS

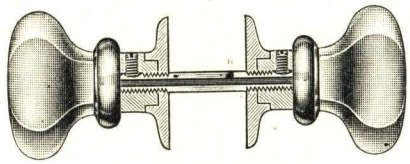

Plain or Standard Type

The knobs are attached to the spindle by screws which pass through the knob shanks and are screwed into the spindle, the knobs being drawn tight against the spindle. There are three holes in each end of the spindle, giving a range of adjustment of one inch. Washers introduced under the ends of the knob shanks eliminate end play.

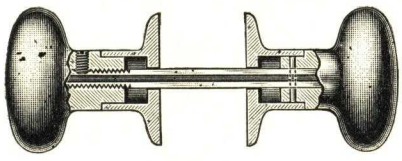

PW Type

The outer knob is fastened to the spindle by a pin which is covered by the thimble on the rose. The inner end of the spindle and the shank of the inner knob are threaded, and the knob is screwed down to make a close working contact. It is held in place by a cone point set screw which enters a groove in the spindle. There is a range of adjustment of one inch. For use with round one-piece wrought knobs.

Glass Knob Type

Both knobs are screwed onto the spindle to the proper point to prevent looseness and retain free action. The knobs are held in place by cone point set screws, which enter grooves in the spindle. The shanks are bracketed into the rose with all side play eliminated. Range of adjustment, one-half inch.

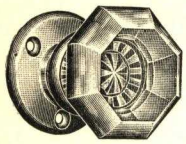

PY Type

The outer knob is fastened to the spindle by a pin which is covered by the thimble on the rose. The inner end of the spindle and the shank of the inner knob are threaded, and the knob is screwed down to make a close working contact. It is held in place by a cone point set screw, which enters a groove in the spindle. There is a range of one inch in adjustment. The thimbles are long and bracketed onto the knob shanks, giving a smooth, easy action under close adjustment. For use with round one-piece wrought knobs with cast shanks and cast knobs.

Orders for above lamps should specify "28-32" volts and "Country Home Lighting"

DATA ON LAMPS

The letter or letters in the bulb indicate the shape and the figure, the diameter in eighths of an inch. Thus: a PS30 bulb is pear shaped and is 3¾ inches in diameter. The letter A indicates New Standard shape, PS indicates pear shaped.

Bulb	Watts	Shape	Length	Diameter	Bulb	Watts	Shape	Length	Diameter
A17	15	new std.	3⅝ in.	2⅛ in.	PS22	75	pear	5⅞ in.	2¾ in.
A19	25	new std.	3 15/16 in.	2⅜ in.	PS25	150	pear	6 15/16 in.	3⅛ in.
A19	50	new std.	3 15/16 in.	2⅜ in.	PS30	200	pear	8⅛ in.	3¾ in.
A21	40	new std.	4 7/16 in.	2⅝ in.	PS35	300	pear	9 7/16 in.	4⅜ in.
A21	50	new std.	4 15/16 in.	2⅝ in.	PS40	500	pear	9 13/16 in.	5 in.
A21	60	new std.	5¼ in.	2⅝ in.	PS52	750	pear	13⅛ in.	6½ in.
A23	100	new std.	6 1/16 in.	2⅞ in.	PS52	1000	pear	13⅛ in.	6½ in.

We are illustrating only those lamps which are carried in stock, but we can supply any type, style or shape of lamp in any wattage, voltage or amperage that may be desired.

DIM-A-LITE SOCKET

No. 23B

Five changes, from full on to out. 110 volts, saves current. Not recommended for lamps larger than 40 watts. Either alternating or direct current.

Packed, 12 on card in carton, weight, 3½ lbs., each, **$1.25**

ALWAYS SPECIFY VOLTAGE IN ORDERING

We are adding items to our Electrical line from time to time.

We seek inquiries on goods that we do not illustrate in this section and will endeavor to supply your needs.

Electric Soldering Irons are shown on page 608.

Electric Drills, Valve and Bench Grinders and other electrically driven tools will be found on their several pages in the Tool Section.

Electric Vacuum Cleaners and Washing Machines will be found elsewhere in this catalogue.

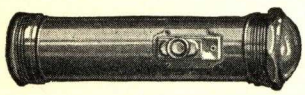

Our Radio catalogue is a separate edition and gladly sent upon request.

ALBANY HARDWARE & IRON CO.

EVEREADY FLASHLIGHTS

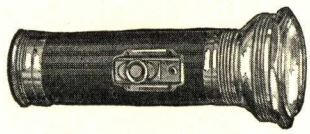

Eveready flashlights are sold with Eveready Mazda lamp but not cells or batteries. They have permanent contacts, permitting both flash and continuous light. Can be used with absolute safety around oil, gas, gunpowder and other explosives and inflammable material.

No. 1926 Assortment

Consists of: 30, No. 1198; 20, No. 1197; 30, No. 1193; 20, No. 1162.

Packed, in carton, weight, 1½ lbs. ..... each, **$13.20**

Concentrated filaments for focusing flashlights.

The Eveready assortment of lamps changes very frequently. We always have the latest one in stock.

We can furnish any Eveready lamp for flashlights and automotive uses.

ALBANY HARDWARE & IRON CO.

RADIO BATTERIES

No. 771

4½ volt "C" battery. Connections for 1½, 3 or 4½ volts. "C" batteries prolong life of "B" batteries.

No. 772

Large size, 45 volt, Vertical "B" battery. For sets of 1 to 3 tubes or multitube sets where space will not permit use of Heavy Duty "B" batteries.

No. 486

Extra large, 45 volt, Layerbuilt "B" battery. Longer life and more economical than any other.

No.	Volts	Length	Width	Height	Wt. Each	Packed	Weight	Each
771	4½	4 in.	1⅜ in.	3 in.	⅞ lb.	10	10 lbs.	**$0.60**
772	45	8 3/16 in.	3¼ in.	7⅞ in.	9 lbs.	5	51 lbs.	**3.75**
486	45	8 3/16 in.	4 7/16 in.	7 3/16 in.	14¼ lbs.	5	82 lbs.	**5.00**

DRY CELL BATTERIES

No. 6

No. 7111

No. 6 Columbia Ignitor. These are the last word in dry cell manufacture. The chemicals are so proportioned that they will stand up under exceptional current drains.

No. 7111. Full directions and diagrams for connecting the Eveready No. 7111 Dry Cell Radio "A" battery to the different dry cell tubes are printed on the jacket of each battery.

No.	Size	Packed	Weight	Each
6	2½x6 in.	50	120 lbs.	**$0.45**
7111	2½x6 in.	50	120 lbs.	**.50**

HOT SHOT BATTERIES

No. 1461

Made up of a number of dry cells, connected in series, assembled in a steel moisture proof container. Internal connections are soldered and cells are insulated from each other.

For ignition systems, alarms, etc.

No.	Volts	Cells	Length	Width	Height
1461	6	4	10⅝ in.	2¾ in.	7½ in.
1562	7½	5	8 in.	5 in.	7½ in.
1662	9	6	8 in.	5⅜ in.	7½ in.

No.	Wt. Each	Packed	Weight	Each
1461	9 lbs.	12	128 lbs.	**$2.30**
1562	11 lbs.	8	115 lbs.	**2.70**
1662	13 lbs.	8	136 lbs.	**3.25**

We carry in stock a complete line of Radio A, B, and C batteries, A and B eliminators, etc., all of which are illustrated in our special Radio catalogue that also illustrates every need for the radio dealer and user. Same will be sent upon request.

ALBANY HARDWARE & IRON CO.

ROYAL GRANITE ENAMELED WARE

Its color is blue-gray; very attractive and varied in mottling. A one coated ware that is noted for its long life, its strength and lack of chipping. With steel specially prepared, with real granite in the enamel mixture—a smooth, non-porous surface is secured that gives the wonderful service for which this ware has become noted.

ALBANY HARDWARE & IRON CO.

NESCO PERFECT OIL COOK STOVES

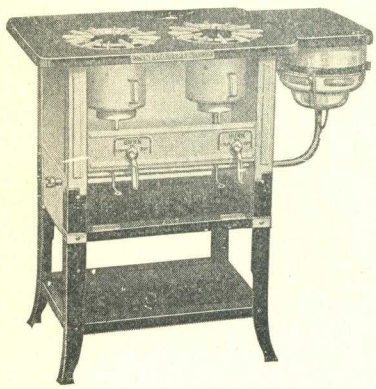

For Kerosene

The glass tank is machine-made from pure, natural green glass carefully annealed. Bail and side handles are attached to a metal band surrounding the body. An automatic valve screws into a two inch opening, which is large enough to make cleaning easy. The flat bottom of the tank furnishes a support to the tank shelf.

Seamless drawn heavily lead coated sub-tank, bolted to the stove top.

Extra heavy steel frame which is built with straight lines and legs thus giving more stability. Cold rolled steel top. High gloss jet black japan on the legs, top shelf, base and tray, with Nesco gray sides, sides and back of cabinet and indicator dial panel. Porcelain enameled chimneys. The only cast iron in the entire stove is in the grates. Leveling screws attached to each leg.

The high shelves are furnished extra. Embossed panels add strength. Nickel plated braces and corner pieces. Jet black shelf, Nesco gray on sides and back.

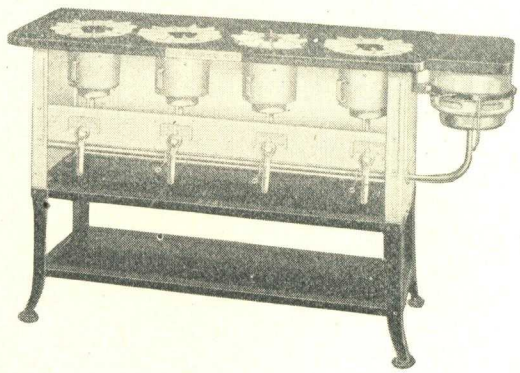

No. 212

Height, 31 in. Length, 33 in. Depth, 17½ in.
Packed, 1, weight, 59 lbs.....each, **$17.50**

POWER TYPES

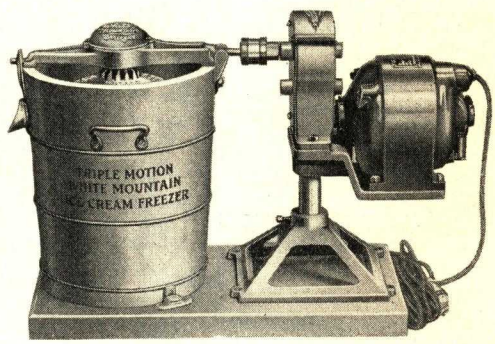

For Factory Shipment Only

Platform

Samson

Electric

Platform type operated by fly wheel or tight pulley for belt. Samson type has tight and loose pulley for belt.

Electric is made in two units: 2, 3, 4 and 6 qt. sizes operated by ¼ h.p. motor; 8, 10 and 12 qt. sizes operated by ⅓ h.p. motor. Small unit equipped with circuit breaker, large unit has fusible plug. Each unit adjustable to its sizes of freezers by raising or lowering the power unit. 10 foot cord and plug with each unit.

214	14 in.	½ doz.	8 oz.	**6.00**

ALBANY HARDWARE & IRON CO.

ARROW WASHING MACHINE

TUB

Tub is made of 20 ounce copper, nickel plated inside and outside. Aluminum cover.

Holds 15 gallons of water, with a washing capacity of 60 pounds of clothes an hour.

Conveniently located drain, threaded for standard garden hose connection, quickly drains the tub.

MOTOR

The motor of ¼ H. P. is installed on an insulated base and can be operated on an ordinary household electric light circuit with ordinary lighting fuses.

There is sufficient power to wash the clothes and operate the wringer at the same time.

WRINGER

Split-top type aluminum frame wringer that swings and automatically locks in five positions and will not operate unless locked in one of the five positions.

Wringer cannot be swung from one position to another while the rolls are in motion.

Quick action safety release and pressure screw on top.

Balloon type rolls 2 inches in diameter that run in wooden bearings.

Reversible water drain.

FRAME

Heavy channel steel frame to which the tub and driving mechanism are firmly fastened is finished with two coats of white Duco.

The three legs will not permit the machine to tip on an uneven surface.

Three extra large ball-bearing casters.

OPERATION

Clothes are washed by water action alone. The water circulator, made of lynite, turns back and forth at a speed of ninety times a minute, causing violent action of the water, surging it up from the outside and drawing it down toward the center, driving strong currents of water through every mesh of the fabric.

Operation is controlled by moving the starting lever.

Six moving parts drive the washer, they and the gears run constantly in oil in an oil-tight case which is finished with two coats of white Duco.

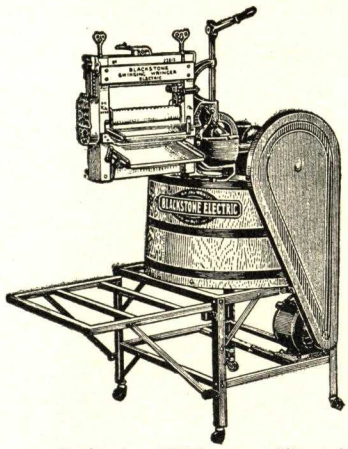

Cycles	Voltage	Packed	Weight	Each
40 and 60	110	crated	265 lbs.	**$155.00**

DEFERRED PAYMENT PURCHASING PLAN

The Blackstone Manufacturing Company has a deferred payment financing plan by which Arrow Washing Machines may be sold to consumers by any dealer who can supply the satisfactory financial qualifications.

For further information dealers should write direct to the Blackstone Manufacturing Company, Jamestown, N. Y.

WASHING MACHINES

Swinging Wringer. Electric

Wooden tub of selected stock. Two ply over-lapping cover can be raised or lowered without turning off power. Holds 22 gallons of water and drains at bottom through a garden hose connection.

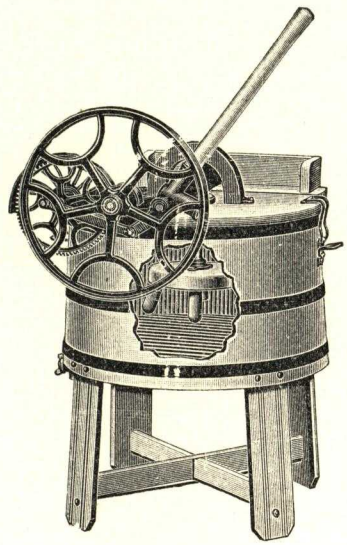

¼ H. P. motor fully enclosed and fitted with cord and plug. Belt protected by a pressed steel guard.

Wringer swings to any position. Shielded cog wheels. Patent release instantly removes pressure from rolls.

Angle iron bench, extension folds up. Heavy casters.

Aluminum dasher does not tear the clothes. Cut gears eliminate noise and are either housed or shielded.

Cycles	Voltage	Packed	Weight	Each
40 and 60	110	crated	269 lbs.	**$90.00**
Without motor		crated	227 lbs.	**70.00**

Quality. Hand Power

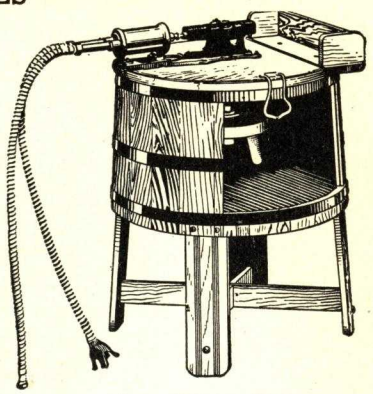

Cypress tub, corrugated side and bottom

Hardwood legs securely cross braced.

Safety dasher does not tear the clothes.

Perfectly balanced as to fly wheel, cut gears, etc. Ball bearings. Double socket for handle, permitting operation either sitting or standing.

Packed, crated, weight, 101 lbs.....each, **$22.50**

Ajax. Water Power

Cypress tub. Corrugated side and bottom. Two ply over-lapping lid. Holds 22 gallons of water, drains at bottom.

Rust proof brass motor operates at 20 pounds or more water pressure.

Hardwood legs securely braced with cross pieces and steel rods.

Safety dasher does not tear the clothes.

All inside castings are galvanized and rust-proof.

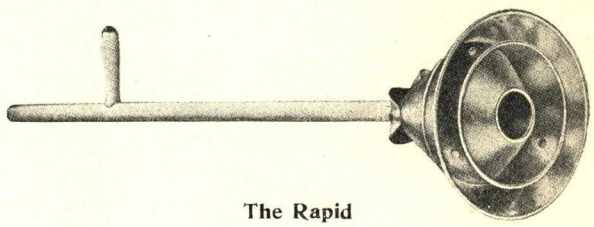

Packed, crated, weight, 79 lbs.....each, **$25.00**

EXTRA HOSE

For Ajax water power washing machine

For	Length	Packed	Weight	Each
Inlet	3 ft.	1	1¼ lbs.	**$1.50**
Outlet	3 ft.	1	1 lb.	**1.25**

VACUUM WASHER

The Rapid

Heavy bright tin, no solder. Hardwood handle. May be dried on stove without danger of melting.

Downward stroke forces air, steam and water through the fabric, causing a vacuum. Finest fabrics are not injured.

Packed, 12, weight, 30 lbs.....each, **$1.00**

WASHING MACHINE DRAINER

No. 400 Siph-O

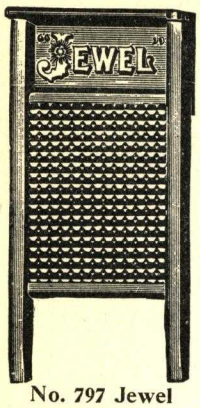

One 5 foot and one 15 inch red corrugated hose sections, both fastened to faucet connection. 15 inch section has a hose clamp slip on connection for faucet.

For filling and siphoning washing machines.

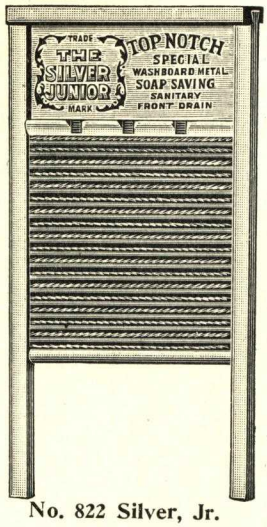

Packed, 1, weight, 1¾ lbs..... **$2.25**

ALBANY HARDWARE & IRON CO.

Ahico	100 lb. drum	110 lbs.	**$0.05**

FLOOR WAX

Paste

Liquid

Dance

Old English paste wax produces a very rich lustre and a great wear resisting surface.

Old English liquid wax or brightener will clean a waxed floor without removing the paste wax, also is an ideal polish for furniture, linoleum, etc.

Old English dance wax is sprinkled lightly over the floor to give a perfect dancing surface, will not ball under the dancers' feet.

Kind	Size Can	Packed	Weight	Per Can
Paste	½ lb.	50 cans	35 lbs.	**$0.50**
Paste	1 lb.	100 cans	120 lbs.	**.85**

Smokeless powder rifle cartridges supplied with soft point bullets unless metal cased are specified.

We can supply the ammunition on this page in either Remington or U. S. make.

REMINGTON GAME LOADS

Loaded Only in Nitro Club Wetproof Shells

Remington Game Loads are scientifically loaded to a fixed uniform standard of velocity, pattern and penetration—with modified recoil. Specific loads for specific game.

Remington Game Loads are thoroughly Wetproof—top wad, crimp and body—another Remington exclusive patented feature. The crimp remains hard and even, does not get fuzzy, break down, flatten, swell or mushroom.

ALBANY HARDWARE & IRON CO.

SHOTGUN CLEANING IMPLEMENTS

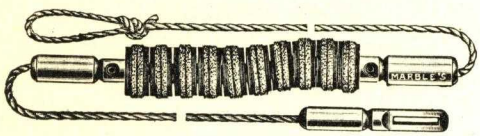

Marble's Shotgun Cleaner

Sixteen softest brass gauze discs to a section, sections separated by fibre discs, all strung on spirally bent spring tempered steel wire.

Sections are smaller than bore but the spiral core exerts equal pressure from chamber to choke, cleaning perfectly.

Sections can be turned when worn.

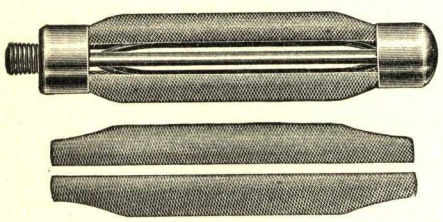

No.	Gauge	Packed	Weight	Each
135	10	12	1½ lbs.	**$0.75**
136	12	12	1½ lbs.	**.75**
137	16	12	1½ lbs.	**.75**
138	20	12	1½ lbs.	**.75**
139	28	12	1½ lbs.	**.75**

Marble's Pull-Thru Cleaner

Uses above shotgun cleaner and works as does the Rifle Field Cleaner.

No.	Gauge	Packed	Weight	Each
310	10	6	1½ lbs.	**$1.00**
312	12	6	1½ lbs.	**1.00**
316	16	6	1½ lbs.	**1.00**
320	20	6	1½ lbs.	**1.00**
328	28	6	1½ lbs.	**1.00**

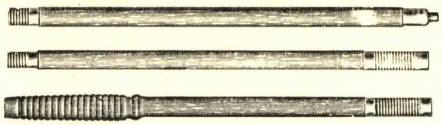

Genuine Tomlinson

Four square inches of surface contact. Brass wire gauze wrapped over wood, cuts all lead, rust, etc.

Polishes as well as cleans, oil should be used, cleaned by a tap on anything solid.

One pair of extra sides with each cleaner.

Article	Gauge	Packed	Weight	Price
Cleaner	10 to 20	12	28 oz.	**$0.40** each
Sides	10 to 20	12	8 oz.	**.20** per pair

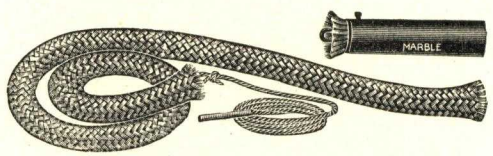

No. 95

Birch wood with brass trimmings. Complete with Nos. 202E, 212E and 232E implements.

No.	Gauge	Packed	Weight	Each
95	10	12	5¼ lbs.	**$0.50**
95	12	12	5¼ lbs.	**.50**
95	16	12	5¼ lbs.	**.50**
95	20	12	5¼ lbs.	**.50**
95	24	12	5¼ lbs.	**.50**
95	28	12	5¼ lbs.	**.50**

ANTI-RUST ROPES

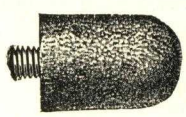

Marble's (Gun Barrel Wicks)

When saturated with oil these "ropes" exclude all air and moisture preventing rust and pitting. One oiling lasts for a year.

12 gauge rope uses 4 oz., .30 caliber rope uses ⅔ oz. when both are wrung dry as possible.

No.	Used For	Packed	Weight	Each
140	10 ga. shotgun	1	4 oz.	**$0.60**
141	12 ga. shotgun	1	4 oz.	**.60**
142	16 ga. shotgun	1	4 oz.	**.60**
143	20 ga. shotgun	1	3 oz.	**.60**
146	28 ga. shotgun	1	3 oz.	**.60**
144	Rifles	1	2 oz.	**.60**
145	Revolvers	1	2 oz.	**.60**

No. 202E

No. 212E

No. 232E

These implements are used with No. 95 cleaning rods.

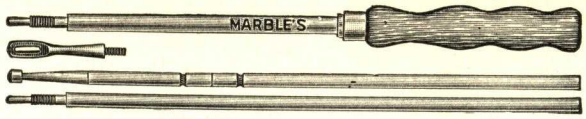

No. 202E is red wool swab in 10 to 28 gauges.

No. 212E is steel wire brush in 10 to 28 gauges.

No. 232E is loop in 10 to 28 gauges.

No.	Gauge	Packed	Weight	Each
202E	any	36	8 oz.	**$0.10**
212E	any	36	8 oz.	**.10**
232E	any	36	4 oz.	**.10**

RIFLE CLEANING IMPLEMENTS

Marble's Nos. 9622, 9728

Brass sections, steel joints, steel roller-bearing swivel tip, wood handle.

With jagged and slotted tips and bag, also attachments to make rod fit any make or size of cleaner.

No.	Caliber	Length	Packed	Weight	Each
9622	.22, .25	26, 30, 36	6	2½ lbs.	**$1.25**
9728	.28 up	26, 30, 36	6	3½ lbs.	**1.25**

Nos. 505, 506

Twisted, coppered wire, ring handle, bristle brush

No.	Caliber	Length	Diameter	Packed	Weight	Each
505	.22	27 in.	..	1	2 oz.	**$0.15**
506	.32	27 in.	..	1	2 oz.	**.15**
510	.22	28 in.	⅛ in.	1	2 oz.	**.10**
512	.32	30 in.	$\frac{5}{32}$ in.	1	2 oz.	**.10**

Marble's Rifle Cleaner

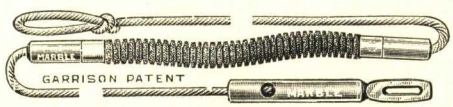

Eight softest brass gauze discs to a section, sections separated by fibre discs, all strung on spirally bent spring tempered steel wire.

Sections are smaller than bore of rifle or revolver resulting in cleaner following the rifling and removing all lead, copper, rust or powder residue.

Sections can be turned when worn.

No.	Cal.	No.	Cal.	No.	Cal.
100	.22	**110**	.32	**118**	.40
104	.25	**112**	.33	**118**	.410

BROKEN SHELL EXTRACTOR

No. 160

Slips inside the broken shell, grabs it by the nose and one motion of lever throws out extractor and broken shell. .22 automatic to .45-90 calibers.

All cals. Packed, 1. Weight, 2 oz. ..... each, **$0.75**

Number and caliber must be specified when ordering any article on this page.

ALBANY HARDWARE & IRON CO.

SOLVENTS

Hoppe's, No. 9

Thoroughly removes the residue of high power smokeless or black powder. Removes metal fouling and leading. Prevents rusting.

Marble's

Dissolves the residue of all black and smokeless powders. Contains no acid. Cleans and polishes, a perfect lubricant.

Remington

Neutralizes the acid residue of nitro powders, leaving interior of barrel bright. Prevents rust and corrosion.

No.	Name	Bottle	Can	Packed	Weight	Each
9	Hoppe's	2 oz.	....	12	4½ lbs.	**$0.35**
244	Marble	.....	3 oz.	12	3½ lbs.	**.30**
544	Marble	.....	6 oz.	6	3½ lbs.	**.60**
	Remington	.....	3 oz.	12	3½ lbs.	**.30**

GUN GREASE

Remington

Prevents rust and corrosion, protects all metals in any climate.

Recommended for firearms, cutlery, tools, bicycles, skates, typewriters, sewing machines, etc.

In 5 in. tubes, packed, 12, weight, 1¾ lbs.....each, **$0.15**

RUST REMOVER

Remington

Removes rust from metal surfaces of all kinds.

Recommended for firearms, cutlery, tools, bicycles, skates, typewriters, sewing machines, etc.

In 5 in. tubes, packed, 12, weight, 1¾ lbs.....each, **$0.25**

HUNTING COATS

No. 07

Canvasback, king of them all, brush brown army duck, 13 ounce outside, 10 ounce inside; waterproofed in "Storm King" finish; sleeves full lined; eyeletted gussets. Side pockets of extra size, set high in front; top pocket double to include whistle. Thickset corduroy collar; open, adjustable, corduroy lined cuffs. All game pockets. Lusterite waterproof pure horn buttons. The foremost coat of its type offered sportsmen today.

No. 06

Canvasback, made of brush brown "Storm King" waterproofed, high count, eleven ounce army duck, inside and out. It has double shoulders and upper half lined sleeves with eyeletted gussets; a wide thick set corduroy collar and open, adjustable, wide corduroy lined cuffs. Two single extra size shell pockets, double breast pocket and three inside skirt game pockets, all lock stitch sewed. Lusterite, waterproofed horn buttons.

No. 03

Canvasback, of brush brown, high count ten-ounce repellent waterproofed army duck outside; fine drill lined through front and back skirt; corduroy collar, double shoulders; two single extra size shell pockets; three inside skirt game pockets. Sleeves with eyeletted gusset and open, adjustable corduroy lined cuffs. Lusterite waterproof horn buttons. Lock stitch sewed.

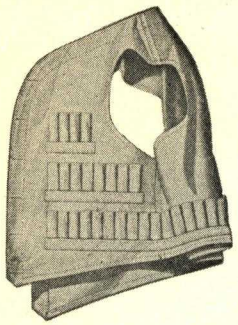

No. 02

Canvasback, of brush brown, high count, eight-ounce repellent waterproofed army duck outside; fine drill lined through front and back skirt; corduroy collar, double shoulders, two single extra size shell pockets and double breast pocket; three inside skirt game pockets. Sleeves with open adjustable corduroy lined cuffs. Lusterite waterproof horn buttons. Lock stitch sewed.

07	36, 38, 40, 42, 44, 46, 48	1	3 lbs.	**$8.50**
06	36, 38, 40, 42, 44, 46, 48	1	2½ lbs.	**6.50**
03	36, 38, 40, 42, 44, 46, 48	1	2 lbs.	**6.00**
02	36, 38, 40, 42, 44, 46, 48	1	1½ lbs.	**5.00**

SHELL VESTS

No. X7

Brush brown, "Storm King" waterproofed, high count, eleven-ounce army duck has a high-cut full front, and is faced on the inside and around the neck with the same material, lock stitch sewed throughout. The bottom row of shell loops circles the back. 60 shell capacity.

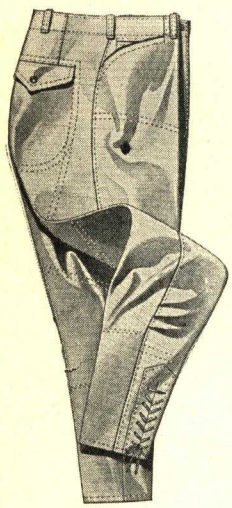

No. X5

Brush brown, fine eight-ounce army duck; repellent waterproofed; full, high cut front, faced on inside and around neck with same material; shell loops average 38 for the different sizes of vests.

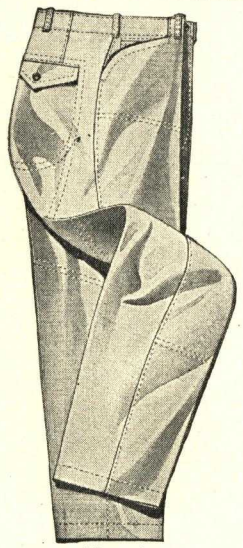

No.	Sizes	Packed	Weight	Each
X7	34, 36, 38, 40, 42, 44, 46	1	¾ lb.	**$3.50**
X5	34, 36, 38, 40, 42, 44, 46	1	½ lb.	**2.50**

HUNTING PANTS

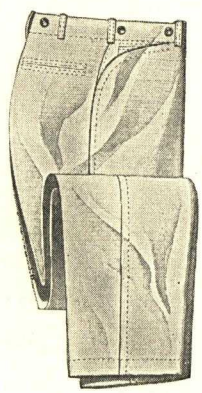

No. LA7

Knee side lacing—The lacing at the side instead of directly in front looks better and is more comfortable, especially with high laced shoes. Used for fishing, hiking, motoring, farm use and hunting as well as riding.

No. A7

Brush brown, "Storm King" waterproofed, high count eleven-ounce army duck with double seat and front reinforcement inside. Convenient, finely shaped top front pockets, watch pocket, hip pockets with flaps, belt loops and buttons.

No. A5

Brush brown, high count ten-ounce repellent waterproof army duck; top front pockets, hip pockets and watch pocket, belt loops and buttons.

No.	Waist Sizes	Packed	Weight	Per Pair
LA7	30, 32, 34, 36, 38, 40, 42, 44	1	2 lbs.	**$5.75**
A7	30, 32, 34, 36, 38, 40, 42, 44	1	2 lbs.	**5.50**
A5	30, 32, 34, 36, 38, 40, 42, 44	1	1¾ lbs.	**4.50**

When ordering Hunting Pants waist and leg length must be specified

HUNTING CAPS

No. 42

Deer hunter's cap. Brush brown "Storm King" waterproofed army duck outside. Crown with red flannel interlining, one half of which folds back over other half, making a red top cap. Plush lined ear flaps and neck protector fold into crown.

No. 42CR. Same as No. 42 except has fine ribbed corduroy outside instead of duck.

No.	Sizes	Packed	Weight	Each
42	6¾ to 7½	12	3 lbs.	**$1.75**
42CR	6¾ to 7½	12	3 lbs.	**2.25**

GAME TRAPS

VICTOR TRAPS

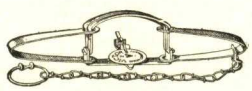

Nos. 0, 1 and 1½

No. 0, Victor. This small trap is meant for catching only such animals as house rats, weasels and pocket gophers. Single spring, plain jaws. Jaw spread 3½ inches.

No. 1, Victor. It is the most useful size for general trapping of muskrats, mink, opossums and martens. Single spring, plain jaws. Jaw spread 4 inches.

No. 1½, Victor. A standard style trap. Many muskrat trappers use it in preference to the No. 1 because its greater weight aids in drowning the captured animal. It is a useful size for mink, skunks, raccoons, fishers and other animals of that class. Single spring, plain jaws. Jaw spread 4⅝ inches.

Nos. 2 and 3

No. 2, Victor. The proper size for foxes and raccoons. It is a fine trap to use for trapping foxes in blind sets, is especially adapted to raccoon trapping, and may be used for all animals of similar size and strength. Double spring, plain jaws. Jaw spread 4⅝ inches.

No. 3, Victor. A good trap for wildcats, foxes, lynx and other large game. It is used sometimes for catching otters where the captured animal is sure to drown soon after being caught. Double spring, plain jaws. Jaw spread 5¼ inches.

ONEIDA JUMP TRAPS

No. 0, Oneida Jump. A trap that is used principally for catching pocket gophers, weasels and house rats. It is sometimes used for catching muskrats, but we do not recommend it for animals larger than those named. Single spring, plain jaws. Jaw spread 4 inches.

No. 1, Oneida Jump. This size is the most popular of the short spring style, and is used generally for all small animals such as muskrats, mink, skunks and martens. Used extensively for trapping hawks and owls. Single spring, plain jaws. Jaw spread 4¾ inches.

No. 1½, Oneida Jump. A very useful general purpose trap and especially fine for mink, muskrats and skunks. Single spring, plain jaws. Jaw spread 5¼ inches.

No. 2, Oneida Jump. A favorite of the fox trapper for dry land sets. It is also an excellent trap for raccoons, fishers and other animals of the same size and strength. Single spring, plain jaws. Jaw spread 5¾ inches.

No. 3, Oneida Jump. This is the proper size for lynx, wildcats, badgers, etc. It is a good trap to use in making water sets for foxes and is frequently employed for trapping coyotes. Single spring, plain jaws. Jaw spread 6¾ inches.

All Game Traps have Chains

ALBANY HARDWARE & IRON CO.

HEDDON SPLIT BAMBOO CASTING RODS

No. 14 Fly Rod

The new Tempered Brown-tone Bamboo is used in this rod. Reel seat is of light finished hard wood. Supplied with extra tip-joint, snake guides and tip top of hard steel.

Supplied in canvas bag reinforced by a hickory dowel.

No. 15 Bait Rod

Finest possible selection of split bamboo tip and butt, seasoned for several years. Solid cork tournament grip of special Heddon design and forward grip. Wrapped at close intervals with silk winding in a beautiful pattern. Fitted with new style Heddon "hold fast" locking reel seat of black hard-fibre. All metal fittings are solid nickel silver and genuine agates throughout. In heavy canvas bag and nickel capped aluminum carrying case.

Light, medium and heavy weights. Special brown-toned "Tempered" bamboo.

No. 10 Bait Rod

Fine selection, split bamboo with solid satin cork grip of special Heddon design and forward grip. Extra heavy nickel silver metal throughout and Heddon "hold fast" Locking Reel Band. Genuine agate top and guides throughout. All metal handsomely ornamented and rod wound at close intervals with silk winding in a beautiful design. Covered with finest elastic waterproof varnish. In heavy khaki color bag and floating aluminum case. Light, medium and heavy weights. Special brown-toned "Tempered" bamboo.

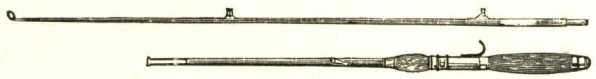

No. 6 Bait Rod

Selected split bamboo tip and butt joint with solid satin cork grip of special Heddon design and forward grip. Genuine agate mountings throughout. Extra heavy nickel silver reel seat with hood at rear of new "hold-fast" locking design. Improved welted nickel silver ferrule. All metal handsomely ornamented. Closely wound with silk windings in three colors. Put up in khaki color cloth bag and floating aluminum case. Strictly high-grade rod in every detail, known as our "Jim Heddon's Favorite." Light, medium and heavy weights. Special brown-toned "Tempered" Bamboo.

No. 4 Bait Rod

Fine quality split bamboo tip and butt joint with full agate mountings, solid cork grip and forward grip. Bamboo extending entirely through to butt cap. Extra heavy nickel silver reel seat with hood and trigger at rear and Heddon Locking Reel Band. Improved welted nickel silver ferrule. Well wrapped with silk windings in three colors. Put up in partitioned khaki color cloth bag. Light, medium and heavy weights.

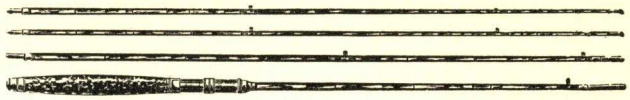

No. 2½ Bait Rod

Good quality, split bamboo tip and butt. Full agate mounted. Solid cork grip and forward grip, bamboo extending through to butt cap. Nickel silver reel seat with hood at rear and trigger on band. Improved welted nickel silver ferrule. Nicely wrapped with silk windings in two colors. Put up in khaki color cloth bag. Light, medium and heavy weights.

SPLIT BAMBOO FISHING RODS

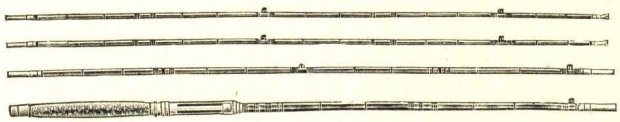

No. 5B

Cork grip, six strip bamboo, three pieces and extra tip, finely varnished. Solid metal reel plate above the hand. Full nickel plated mountings. Silk wound snake guides and silk wound at intervals. In wood form and cloth bag.

No. 5F is same as No. 5B except, reel seat is below hand.
No. 50B is same as No. 5B except, it has no extra tip and in cloth bag only, no wood form.
No. 50F is same as No. 50B except, reel seat is below hand.

No.	Lengths	Kind	Packed	Weight	Each
5B	8½, 9 ft.	Bait Rod	1	17 oz.	**$3.00**
5F	9, 9½, 10 ft.	Fly Rod	1	14 oz.	**3.00**
50B	8½, 9 ft.	Bait Rod	1	10 oz.	**2.50**
50F	9, 9½, 10 ft.	Fly Rod	1	8 oz.	**2.50**

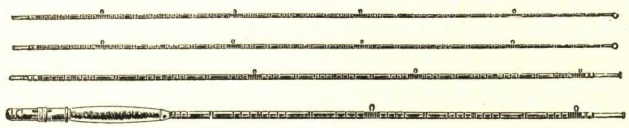

No. 51B

Cork grip, three pieces and extra tip, finely varnished. Solid metal reel plate above the hand. Full nickel plated mountings, capped ferrules. Snake guides and one ring top. Wound at intervals with two colors of silk. In covered wood form and cloth bag.

No. 51F is same as No. 51B except, reel seat is below hand.

No.	Lengths	Kind	Packed	Weight	Each
51B	8½, 9 ft.	Bait Rod	1	15 oz.	**$3.50**
51F	9, 9½, 10 ft.	Fly Rod	1	12 oz.	**3.50**

No. 9F

Cork grip, three pieces and extra tip. Six strips of fancy mottled bamboo firmly cemented together so as to leave the natural outside enamel of the bamboo intact, tending to greater strength and longer life. Full nickel plated mountings, patent reel plate below the hand. Improved and welted ferrules, metal plugs. Silk wound rings and keepers and fancy cluster windings of red and green silk. Flannel covered wood form and cloth bag.

No. 9B is same as No. 9F except, reel seat is above hand.

No.	Lengths	Kind	Packed	Weight	Each
9B	8, 8½, 9 ft.	Bait Rod	1	15 oz.	**$10.00**
9F	9, 9½, 10 ft.	Fly Rod	1	12 oz.	**10.00**

No. 12F

Cork grip, three pieces and extra tip. Extra good quality with a swell of alternate red cedar and bamboo. German silver mountings. Waterproof reel seat below hand. Welted ferrules. Fly tops. German silver snake guides. Two color silk winding. Finely varnished. Flannel covered wood form and canvas bag.

Lengths, 9, 9½, 10 ft., packed, 1, weight, 16 oz. ..... each, **$13.50**

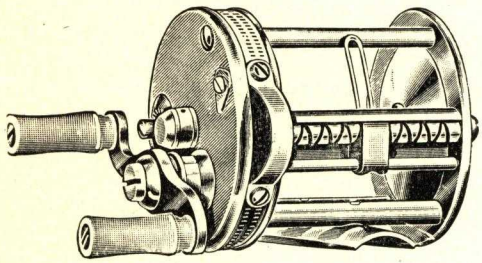

HEDDON CASTING REELS

All Heddon reels are made under the following specifications:

Frames of best, tested, hard-drawn, watch nickel. Stud, shaft, pivots and pinion of Stubbs drill rod, hardened, oil tempered, ground and polished to size. Hard drawn phosphor bronze gears cut helically, insuring strength, power and smoothness.

Quadruple multiplier; outside diameter 2 inches; length of spool 1⅝ inches; diameter of spool head 1 7/16 inches. Double handle, 1 inch radius, 2⅜ inches long. Oiled without taking apart.

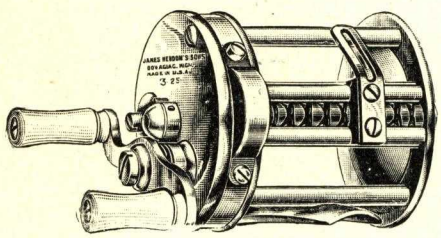

Bright, non-tarnishing finish. Capacity, 100 yards, 15 pound test line.

No. 3-35

Level-winding, the steady bar relieves winding mechanism of strain, wear and destructive drag. Hand processes and precision methods are used in construction.

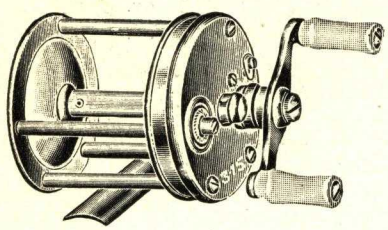

Packed, 1, weight, 16 oz.....each, **$35.00**

No. 3-25

Level-winding mechanism supported on two steady bars. See description at top of column.

Packed, 1, weight, 14 oz.....each, **$25.00**

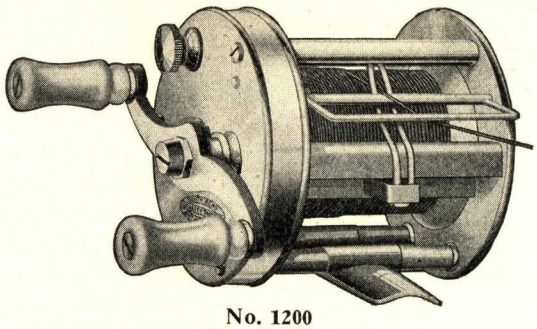

No. 3-15

Open or plain type, not level winding. See description at top of column.

Packed, 1, weight, 12 oz.....each, **$20.00**

SOUTH BEND CASTING REEL

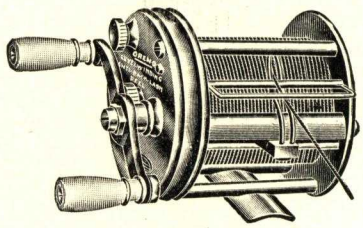

No. 1200

Level-winding, anti-back-lash. Thumbing and spooling are entirely eliminated. The brake action applied only for that fraction of a second when bait hits the water.

Liberty silver frame, double grip handle. Quadruple multiplying gearing. Spool: 1½ in. diameter, 1 1/16 in. wide. Capacity, 100 yards 16 to 20 pound test line.

Packed, 1, weight, 9 oz.....each, **$16.50**

ORENO CASTING REEL

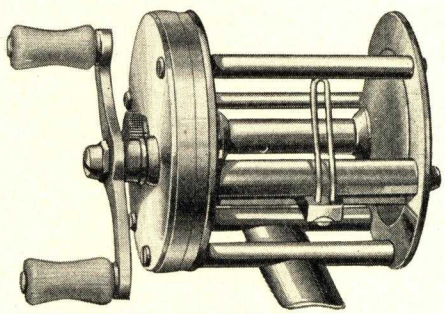

No. 1000

Level-winding, anti-back-lash. Has the same action and operation as No. 1200.

Highly silvered finish frame, double grip handle. Quadruple multiplying gear. Spool: 1½ in. diameter, 1 1/16 in. wide. Capacity, 100 yards 16 to 20 pound test line.

Packed, 1, weight, 9 oz.....each, **$8.50**

WINDRITE CASTING REEL

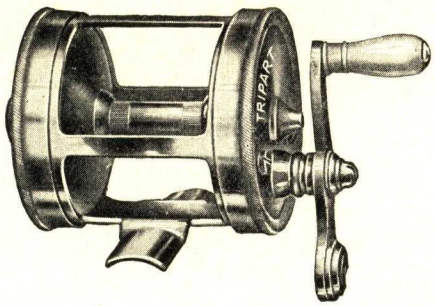

No. 1050

Level-winding. Highly polished nickel finish, double grip handle, improved rod clip. Quadruple multiplying. Spool: 1½ in. diameter, 1 1/16 in. wide, 100 yard capacity.

Packed, 1, weight, 8 oz.....each, **$7.00**

TRIPART CASTING REELS

No. 5/80, this is the newest thing in reel construction. It consists of three pieces, which can be easily taken apart. Reel frame and reel seat are drawn from one piece of plate brass, without solder, joint or rivet, finely finished and beautifully nickeled, with spool of German silver. Quadruple multiplying. Made in one size. Capacity, 80 yards; width of spool, 1⅜ inches; diameter of spool, 1¾ inches.

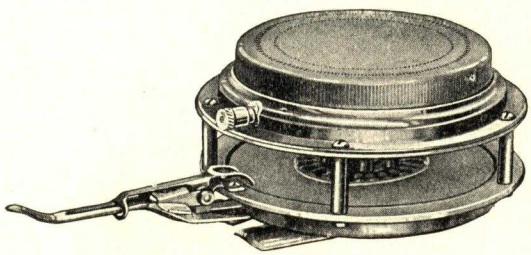

Packed, 1, weight, 10 oz.....each, **$6.00**

FREE SPOOL "TRIPART" REEL

No. 5/81, same general description as No. 5/80, with free spool attachment and no "back lash." In all "free spool" reels the spool starts to revolve more quickly at the beginning of the cast, because the handle and gears are disengaged. During the cast the spool responds more readily to delicate thumbing because it is free from the momentum of the handle. No danger of stripping the gears when casting.

Packed, 1, weight, 10 oz.....each, **$8.00**

MARTIN AUTOMATIC REELS

Nos. 1, 2, 3

No. 1. Creek Whipper. Although adapted for brook trout it is strong enough for heavier work.

No. 2. A strong, serviceable reel, adapted to general fishing.

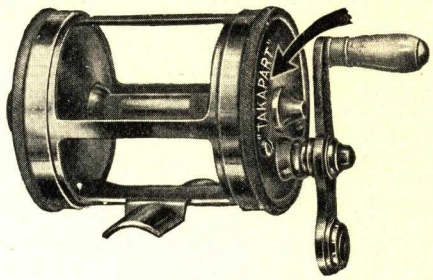

No. 3. Made especially for bass, but is an all around reel.

No. 4. Made especially for salmon.

No. 27. This Fly Wate reel is made primarily for fly casting but is good for trolling, still fishing and bait fishing.

No.	Capacity G Line	Packed	Weight	Each
1	75 feet	1	⅝ lb.	**$4.50**
2	90 feet	1	⅝ lb.	**5.00**
3	150 feet	1	¾ lb.	**5.50**
4	225 feet	1	¾ lb.	**6.00**
27	90 feet	1	⅝ lb.	**10.00**

TAKAPART CASTING REELS

Quadruple Multiplying

No. 4/80, this is the latest style of "Takapart" reel —the tubular frame. This means that the entire frame of the reel is made from a solid piece of tubing, with no screws or rivets to work loose. This absolutely rigid frame, together with the trueness of the bearings, the perfect workmanship on the axle, spool, spindle and pinion, give the perfect balance and remarkable running and wearing qualities. 80 yards capacity.

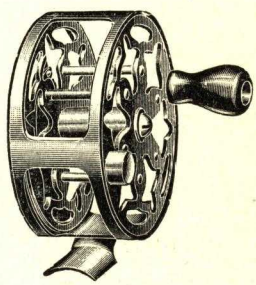

Packed, 1, weight, 10 oz.....each, **$7.00**

THE "TAKAPART" FREE SPOOL REEL

No. 4/81, this reel is the same as the regular Takapart except that it has the free spool. See No. 5/81 for description of action of free spool.

Packed, 1, weight, 10 oz.....each, **$9.00**

YALE FLY WEIGHT REEL

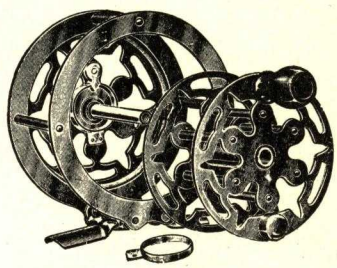

No. 180N

Extra light weight, nickel finish. One piece click. Enlarged spool, 80 yards capacity.

Packed, 1, weight, 6 oz.....each, **$2.00**

YALE LIGHT WEIGHT REELS

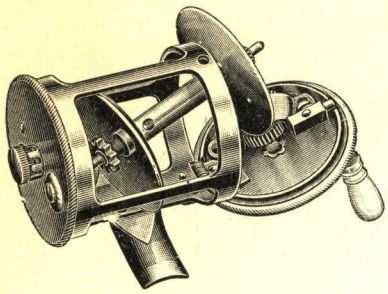

Nos. 60N, 80N, 120N

Strong and serviceable, made from nickel silver. One piece click. Single action, enlarged spool.

No.	Capacity	Packed	Weight	Each
60N	60 yds.	1	6 oz.	**$2.50**
80N	80 yds.	1	7 oz.	**2.65**
120N	120 yds.	1	8 oz.	**2.75**

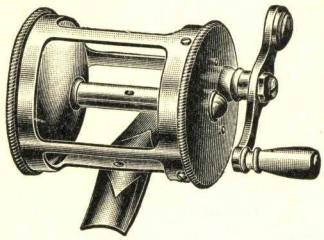

ALBANY HARDWARE & IRON CO.

SAMSON FISHING REELS

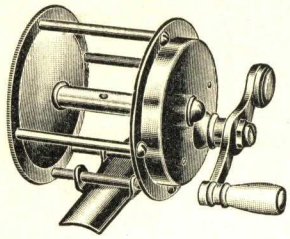

No. 500

A high grade bait casting reel, nickel plated. Quadruple multiplying. Free running, removable spool, balanced handle. Knock down frame.

No. 350

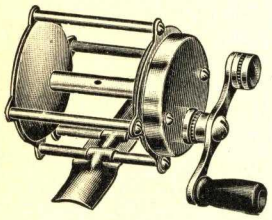

A high grade bait casting reel, nickel plated. Quadruple multiplying. Free running spool, balanced handle. Solid frame.

No. 250

A good grade bait casting reel, nickel plated. Quadruple multiplying. Free running spool, balanced handle.

SUNNYBROOK REEL

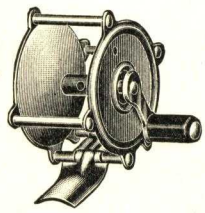

No. 75

Bait casting reel, nickel plated. Multiplying, click and drag on back plate, balanced handle. All screws, no rivets.

No.	Capacity	Packed	Weight	Each
500	80 yds.	1	10 oz.	**$4.50**
350	80 yds.	1	10 oz.	**3.50**
250	80 yds.	1	9 oz.	**2.50**
75	60 yds.	1	5 oz.	**.75**
35	40 yds.	6	16 oz.	**.50**

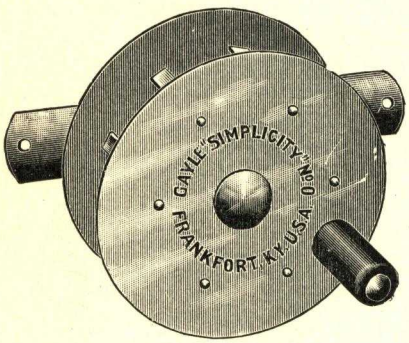

UNION HDWE. REEL

No. 35

Nickel plated. Made with raised pillar and permanent click.

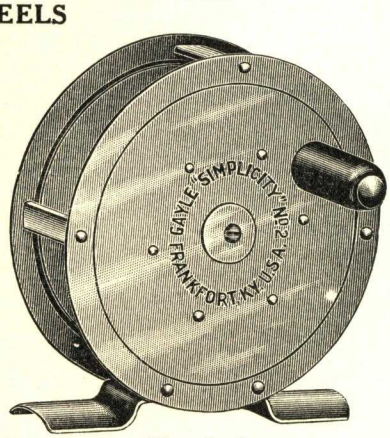

SIMPLICITY FISHING REELS

No. 0

Free running casting reel. Heavily nickel plated, cold rolled steel. Fastens to side of rod.

No.	Cap'y	Size	Packed	Weight	Each
0	50 yds.	2⅛x¾ in.	12	1¾ lbs.	**$0.20**
1	50 yds.	2½x¾ in.	12	2¾ lbs.	**.35**
2	50 yds.	2½x¾ in.	12	2¾ lbs.	**.50**

Nos. 1, 2

No. 1. Single action reel. Polished, nickel plated, cold rolled steel. Fits on reel seat of any rod.

No. 2. Same as No. 1 except has adjustable back sliding click.

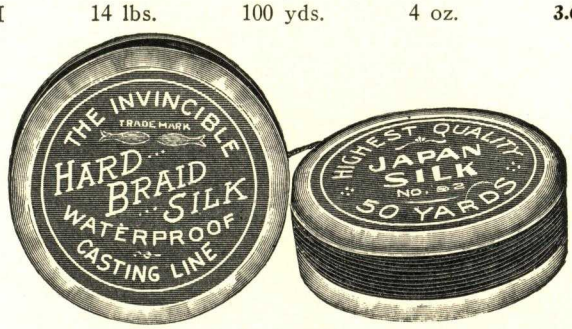

FISHING LINES

ALBANY HARDWARE & IRON CO.

HEDDON GAME FISHER

5500 Series

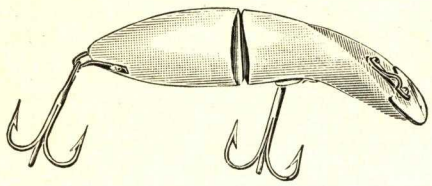

The swimming movement is serpentine, covering a full third of a circle in every four or five inches of forward travel.

Floats at rest, depth of deep course is regulated by reeling speed.

No. 5501, rainbow
No. 5502, white body, red head and tail
No. 5509D, green scale
No. 5509P, shiner scale
No. 5509M, pike scale

Series	Length	Weight	Packed	Each
5500	4¾ in.	¾ oz.	1	**$1.25**

HEDDON "BABY" GAME FISHER

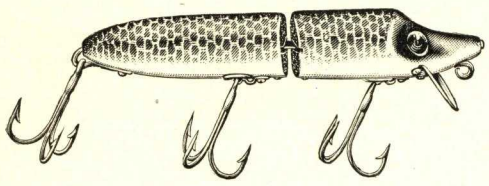

5400 Series

The same in action as the 5500 series

No. 5401, rainbow
No. 5409D, green scale
No. 5409P, shiner scale
No. 5402, white body, red head
No. 5409M, pike scale
No. 5409R, mullet scale

Series	Length	Weight	Packed	Each
5400	3¾ in.	½ oz.	1	**$1.25**

HEDDON JOINTED VAMP

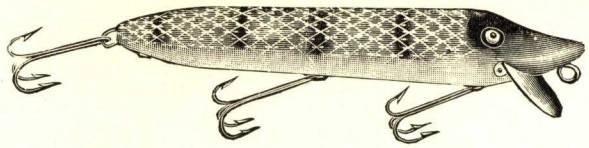

7300 Series

The Vamp with the jointed feature. Floats at rest. Dives and swims when moving. Has an alluring new movement.

No. 7302, white body, red eyes and tail
No. 7309M, pike scale
No. 7309P, shiner scale

Series	Length	Weight	Packed	Each
7300	4¼ in.	¾ oz.	1	**$1.25**

HEDDON VAMP

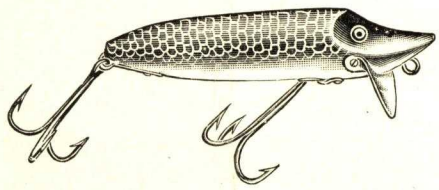

7500 Series

Semi-deep. The swimming image of a baby pike with its attractive swimming and diving movements. Beautiful and deceptive finishes.

No. 7500S, white body, red and green spots
No. 7501, rainbow
No. 7502, white body, red eyes and tail
No. 7509L, yellow perch scale
No. 7509M, pike scale
No. 7509P, shiner scale
No. 7509R, mullet scale

REACH CATCHER'S MITTS

No. 12A

No. 8A

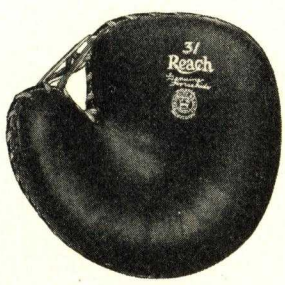

No. 41

No. 12A. The double face mitt. Made of a perfect selection of dark brown horse hide. Leather welted, double stitched seams. Rolled leather binding. Two faces, each moulded from a single piece of leather, give double wear and perfect catching ability. King patent lacing device holds padding firmly in place and the Reach hold fast back permits, after adjustment, removal of glove without handling the straps. The lacing between thumb and face of mitt permits formation of a pocket of any depth. Special felt padding.

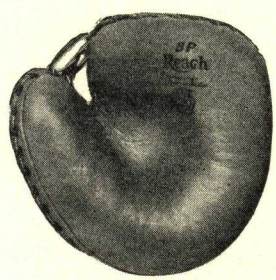

No. 8A. Professional moulded model. Finest selection of golden grain, horse hide. Leather welted, double stitched seams. Rolled leather binding. Hand formed asbestos felt padding. Professional style trap lacing at thumb. Strap and buckle at wrist with buckle protector.

No. 41. Full moulded model. High grade dark brown horse hide. Double stitched seams. Rolled leather binding. Leather lacing. Strap and buckle at wrist with hand protector. Trap lacing at thumb for adjustment to form pocket. Best quality felt padding, hand formed.

TUBULAR SKATE AND SHOE OUTFITS

NESTOR JOHNSON'S "NORTH STAR"

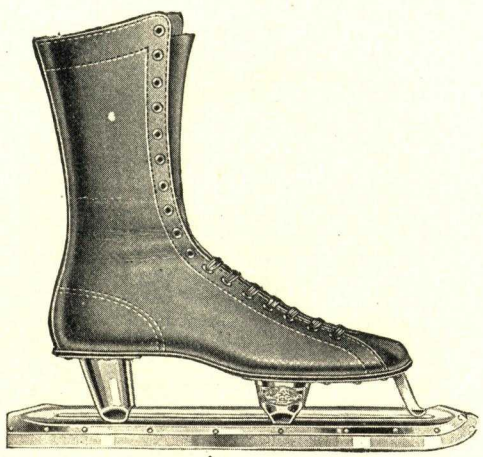

Patented rib on runner tube—strong—rigid runner cannot spring or bend. One-piece cold drawn seamless steel front cup riveted to solid plate, giving a firm, unvarying support to the foot. One-piece cold drawn seamless heel cup. No seams to spread—no joints that loosen. High carbon special runners tempered by Nestor Johnson process, that insure speed, safety and firm grip. Moulded solid sole leather arch supporting counter, that comes forward under the instep and gives real support to the foot when skating. Shoes are reinforced for maximum support and comfort—Quality product. Skates firmly and properly riveted to shoes so as not to loosen—carefully set in correct scientific position.

FLEETWING RACERS

Same general description as for Fleetwing Coasters, except that these Racers have metal front allowing of easier control in steering.

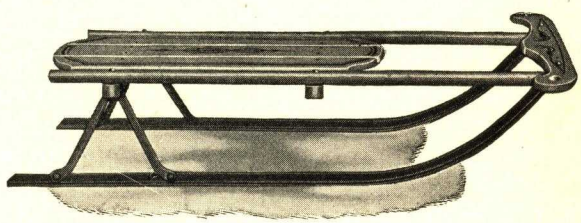

Nos. 210, 220, 230

No.	Long	Wide	High	Weight	Each
210	45 in.	13½ in.	6 in.	12 lbs.	**$2.62**
220	51 in.	13½ in.	6 in.	13 lbs.	**3.10**
230	55 in.	13½ in.	6 in.	14¼ lbs.	**3.48**

NON-STEERING SLED

Best of materials. Wood top, varnished. Metal runners and knees, enameled red.

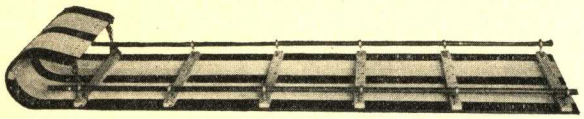

No. 90

No.	Long	Wide	High	Weight	Each
90	30 in.	12 in.	6 in.	5 lbs.	**$1.25**

All sleds on this page are packed two in a bundle. The weights given are of one sled.

ALBANY HARDWARE & IRON CO.

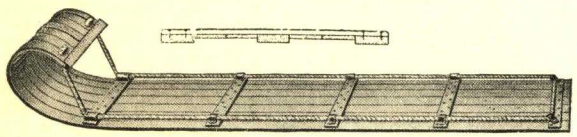

TOBOGGANS

Oxford

The outside and center slats, of the finest ash and oak, are thicker than the others of birch, which lessens the possibility of skidding. Spar varnish finish. Wood side rails.

Length	Packed	Weight	Each
6 feet	1	21½ lbs.	**$11.25**
7 feet	1	25 lbs.	**13.50**
8 feet	1	29 lbs.	**15.75**
9 feet	1	32½ lbs.	**21.00**
10 feet	1	36 lbs.	**25.00**

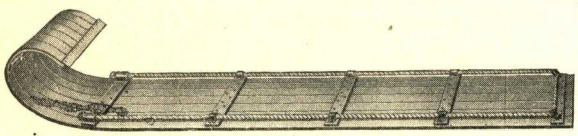

Strand

Natural finished hardwood, with one coat of shellac on the top. The middle and two outside slats are thicker than the other four, adding to the strength, increasing the speed and lessening the possibility of skidding.

Heavy rope rail with leather loops.

Length	Packed	Weight	Each
5 feet	1	12½ lbs.	**$7.50**
6 feet	1	15¾ lbs.	**9.00**
7 feet	1	17½ lbs.	**10.50**
8 feet	1	20 lbs.	**12.00**
9 feet	1	22½ lbs.	**13.50**
10 feet	1	25 lbs.	**15.00**

Little Kid

Slats all the same thickness. ¼ inch rope fastened with leather loops.

Length	Packed	Weight	Each
4 feet	1	5 lbs.	**$4.25**

TOBOGGAN CUSHIONS

Finely tufted, artificial leather faced. Strings at intervals for tying to toboggans.

Length	Packed	Weight	Each
3 feet	1	4½ lbs.	**$3.00**
4 feet	1	6 lbs.	**4.00**
5 feet	1	7½ lbs.	**5.00**
6 feet	1	9 lbs.	**6.00**
7 feet	1	10½ lbs.	**7.00**
8 feet	1	12 lbs.	**8.00**
9 feet	1	13½ lbs.	**9.00**

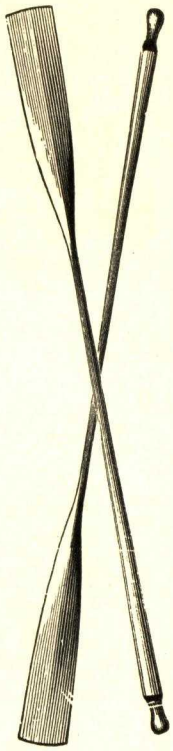

OARS AND PADDLES

OARS

High grade, straight grain, selected stock.

Kind	Lengths
Ash	6 to 9 ft.
Spruce	6 to 8 ft.
Spruce, copper tips	6½ to 8½ ft.

PADDLES

FLINCH

Something entirely different in card games, each pack consisting of 150 cards, which are absolutely necessary to play the game successfully. The combinations resulting, while simple, are so intricate that the game has been pronounced by many to be more scientific than whist. Flinch is an innocent, harmless game, which may be played in any home by the whole family, and enjoyed by old and young alike. More simple than authors, more scientific than whist.

Packed, ½ doz., weight, 3½ lbs.....per doz., **$9.00**

EMBLEM BICYCLES

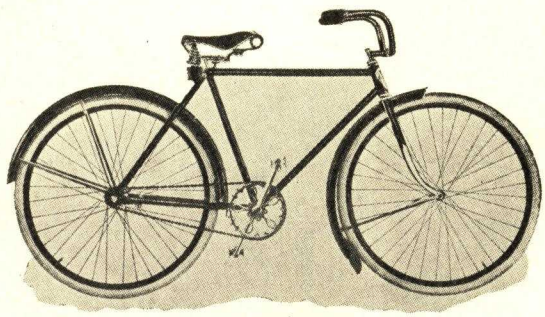

Model 144

Curved Truss Frame, With Coaster Brake

Extra strong for those requiring such a wheel. Just the thing for a heavy man, mail carrier or delivery boy. Very light in weight considering its design.

Specifications: Frame, 1 inch seamless tubing; height, 20 and 22 inch; crown, drop forged; hanger, patent one piece double life cones; hubs, turned from solid steel; wheels, 28 inch front and rear; chain, roller, $\frac{3}{16}$ inch, 1 inch pitch; finish, carmine, option, black; sprockets, front 24 and 26 tooth; crank, one piece drop forged oval; handlebar, adjustable; saddle, motorbike; pedals, rubber tires, single tube, guaranteed; stand, to match frame.

Packed, 1, weight, 50 lbs..... each, **$42.50**

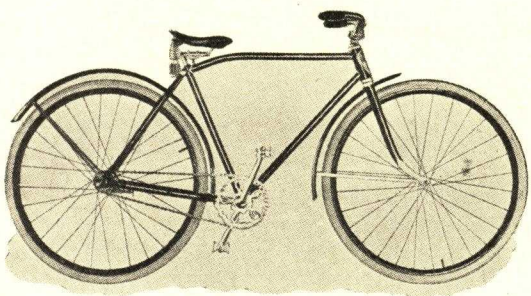

Model 32

Men's Roadster, With Coaster Brake

A high grade utility bicycle for general purposes. Built of the best materials and with greatest care. Light, yet very strong.

Specifications: Aside from the fact that this machine does not have the truss frame, it differs only in minor detail from the Model 144.

Packed, 1, weight, 50 lbs..... each, **$40.00**

Model 72

Boy's Juvenile, With Coaster Brake

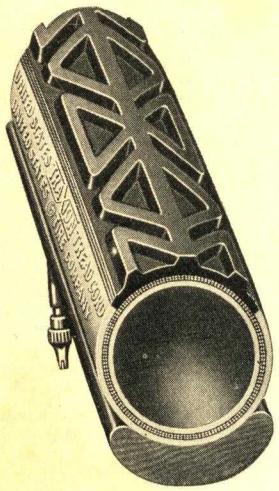

Frame has bent top bar giving a low saddle position; a very desirable feature on a juvenile wheel.

Specifications: Frame 1 inch seamless tubing; height, 14, 16 or 18 inch frame; crown, single piece drop forged; hanger, one piece, double life cones; hubs, turned from solid steel; wheels, 20 inch for 14 inch frame; 24 inch for 16 inch frame; 26 inch for 18 inch frame; chain, $\frac{3}{16}$ inch roller; finish, carmine, option black; sprockets, front 20 or 22 tooth; cranks, drop forged; handlebar, adjustable; saddle, Troxel or Messinger; pedals, rubber; tires, single tube, guaranteed.

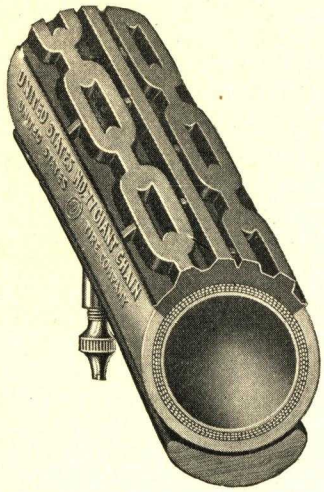

Packed, 1, weight, 50 lbs..... each, **$40.00**

ALBANY HARDWARE & IRON CO.

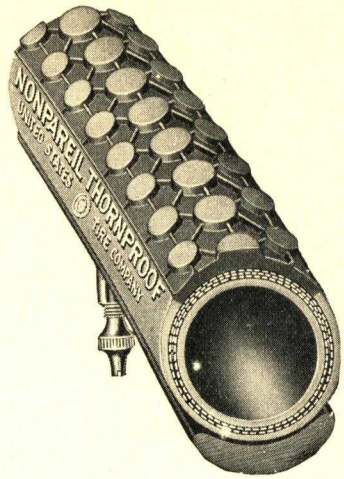

BICYCLE TIRES

U. S. Traxion Tread Cord

U. S. No. 77 Chain Tread

U. S. Nonpareil Thornproof

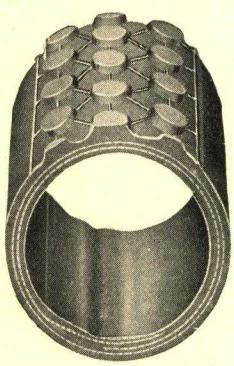

U. S. Traxion Tread Cord. White sides, black tread. Made on the same principle as automobile cord tires. Pure gum inner lining, two full plies of the finest quality bicycle cord fabric, cover stock of tough pliable rubber. Extra wide rubber tread which is real anti-skid.

U. S. No. 77 Chain Tread. White sides, black tread. Made of three plies of selected grade of fabric over pure gum lining. Tread design is parallel rows of heavy chains with center rib.

U. S. Nonpareil Thornproof. White sides, rubber tread. Made of selected quality plantation rubber and two plies of best quality tire fabric. Thornproof strip on the tread resists punctures and adds to wear of tire.

U. S. Juvenile. White sides, red studded tread. Two ply, best quality throughout. Very tough tread.

Brand	Size	Packed	Weight	Per Pair
U. S. Traxion Tread Cord	28x1½ in.	1	2⅝ lbs.	**$6.00**
